"Let Your Light Shine" - motivated and encouraged by this motto Rosary School has flourished from a sapling into a mighty shady tree, strengthening its roots and spreading its shoots. It has no doubt been 50 years of relentless toil and in these 50 years the school has imparted education to thousands of students simultaneously inculcating in them a growing consciousness of human dignity and welfare of fellow human beings.

This special issue of our school magazine "**Golden Foot Prints**" has been designed to take the reader down the memory lane and review for oneself the achievements of Rosary School in its glorious 50 years. The pages are an amalgam of sweet memories, expressions of gratitude, sharing of experiences and creative impressions of the mind in various forms.

It has been a rewarding and fulfilling experience to bring out this Golden Jubilee edition of school magazine. It would not have been possible without Mrs. Sunaina Nelson, Mrs. Kamla Bhatia, Mrs. Archana Khetarpal and the entire magazine committee who has worked with me every step of the way. I thank Fr. Denny George the administrator, for his valuable help to put this magazine together.

MESSAGE FROM THE APOSTOLIC NUNCIO

I am happy to learn that the Rosary Senior Secondary School of Delhi Archdiocese is celebrating its Golden Jubilee this year.

The Rosary Senior Secondary School has rendered excellent service to the people of the locality over these past 50 years, catering to the intellectual and physical development of the children as well as helping in the formation of character by inculcating sound moral and spiritual values. The School strives to teach the young students, not only high academic achievements and skills, but also community responsibility, Christian and social values, in order to raise good, disciplined, efficient and loyal citizens for the country.

I gladly join the Principal, staff, beneficiaries and well-wishers of the School in thanking and praising God for the past 50 years of blessings that He has showered upon the School. May this Golden Jubilee celebration be an occasion for a renewed and fuller commitment to the Church's ministry of educating her children!

With my blessings and prayerful wishes for a memorable Jubilee celebration.

Sincerely in Christ,

Archbishop Pedro Lopez Quintana

Fifty years of service to thousands of children is indeed a great contribution to society that one can be proud of and truly celebrate and rejoice in.

The Rosary School has been steadily making progress both in quality and quantity over the years and the credit goes primarily to the Principals and the dedicated Staff, without whose cooperation it was not possible to make the school what it is today.

In particular I would like to gratefully remember Fr. George Panackal who built the school and saw it grow for several years. Though he has lost his sight and cannot see how the school has grown in its physical structure, I am sure, he will in a special way rejoice on the occasion of the Golden Jubilee Celebration of the school.

They say that the greatest room in the world is the room for improvement and I am sure the Golden Jubilee celebration will be an opportunity to see in what other way the school can make headway in the context of the many challenges today, particularly that of social justice and equality of opportunity.

My congratulations and thanks to one and all associated with the Rosary School, the Governing Boards, the Managing Committees, the Principals, Vice Principals and Headmistresses, the Staff, students and their parents over the last five decades. God bless them all.

I am extremely glad to know that the grand finale of the Golden Jubilee celebrations of Rosary Senior Secondary School, Kingsway Camp, Delhi, is scheduled for October 5, 2008. This is indeed a momentous occasion in the history of this venerable educational institution and in the history of the Archdiocese of Delhi itself because the foundation of Rosary School in 1958 was a milestone in the onward journey of the Archdiocese. A jubilee is always a time of looking back in thanks giving to God for the countless blessings of the forgone years and a time of hopeful looking forward to what is yet to come. During the fifty years of its glorious existence and growth Rosary School has rendered such a marvellous service in the field of education, shaping and moulding young hearts and minds to be good human beings and responsible citizens of our country and the world. This great mission has been the life's goal of numberless dedicated staff so many of whom have retired and many gone for their eternal reward. We salute them and pray their legacy may continue to inspire the institution. We have to specially remember all the Principals and Vice-Principals who guided the destiny of this institution and endeavoured to raise it to these heights. I am sure the thousands of students who have passed out of the portals of this great institution will thank God for the education they received here on account of which they are what they are today.

I thank God that I had some opportunity of being associated with Rosary School as priest of the Archdiocese of Delhi and more closely as the Auxiliary Bishop from 2001 - April 2007.

On this joyful occasion I congratulate the present Principal Fr. Sabu Joseph and his team of dedicated staff. I invoke God's abundant blessings upon the Principal, staff and students and pray that the next half-century may see Rosary School entering into a more glorious phase.

I am happy to know that Rosary Senior secondary School is celebrating Golden Jubilee this year. It is indeed an important milestone in the life of the school, a time to celebrate and thank the Almighty.

What a wonder indeed! For Fifty years, Rosary Senior Secondary School was engaged in one of the most sublime activity of educating and forming the most precious years of so many children. Looking back, from day one, there were so many who came as toddlers learning to walk, who even stumbled and finally learned to stand on their own ready to face life challenges. Without doubt, many of them will testify the important role the school played in making them what they are today.

A good school does wonders in the life of its pupil, which is revealed in due time. And all the way together with its education facilities, it is sheer patience, hard work, love and sincere concern for every student in the school premises that makes the clinching difference of a good school.

On the occasion of an auspicious celebration like this, it is imperative for the Rosary Senior Secondary School, the administration, teachers and students to take stock and re-enforce their efforts towards making this school a model school. May it be a school that will indeed make every teacher and student proud of being part of it.

I take this opportunity to congratulate the administration, teachers and students of the School and wish them very best in their efforts May Rosary Senior Secondary School always be filled with an environment of patience, hard work, love and sincere concern. And may God bless each one of you in your endeavours abundantly.

I am very glad to know that the Rosary School is celebrating the Golden Jubilee of its foundation. This is an occasion to thank and praise GOD for this Institution with a Thanks Giving Mass by the Archbishop of Delhi, Most Rev. Vincent M. Concessao.

Rosary School had a very small beginning near Dhirpur - Nirankary Colony area. I had the privilege to develop this existing marshy land in the year 1964.

This was the first English medium co-educational Catholic School built up by the Archdiocese of Delhi. The purpose of this school was the socio-economic development of the students who were sent to Rosary School. The Management of the school by inculcating good moral principles of the students was making them responsible citizens of our country.

The past records of students' educational achievements, from the first batch that appeared in the year 1973 in CBSE Board is excellent. This tradition of educational excellence continued till today.

I would like to use this occasion to thank the late Archbishop Joseph Fernandez, who offered the first instalment of the Rosary School Building Fund from his death bed at Holy Family Hospital. Later on, late Archbishop Angelo Fernandez and late Archbishop Alan de Lastic blessed this Institution. I remember with gratitude the rebuilding of our School Library and the Science Block after the sudden flood in the year 1978. On this occasion the inmates of Ozanam Home (home for the aged) were lifted up physically to the newly built residence of Rosary Church.

This is also a unique occasion to count God's blessings at all good and bad times.

I would like to congratulate the present Principal, Fr. Sabu. This will help him to give extra attention to the poor children of this area. Probably some of the people and many parents of old students remember that I was the Principal of the Rosary School and also the Parish Priest of Rosary Church at the same time, for the years 1964 - 1985, so the history is repeated and now Fr. Sabu has been appointed as the Principal of Rosary School and Parish Priest of Rosary Church by the present Archbishop, Most. Rev. Vincent M. Concessao of Delhi Archdiocese.

On this occasion I would like to congratulate the Principal, Staff and Students of Rosary School. May the good Lord Bless you all in full measures.

Promising continued prayers for all of you.

With best wishes

The Golden Jubilee of the Rosary School is an occasion to look back in gratitude to God, the Management, the Staff and all those who have contributed in any way to making the School what it is today.

If there is one individual whose labour and devotion stand out, it is Fr George Panakkal who in spite of all the obstacles in the way, worked day and night, losing his health in the process, to make the School a landmark in Kingsway Camp and surroundings. He worked almost single-handedly to raise funds, plan and execute the mighty project. His love for the poor was legendary, and the love and care he bestowed on the senior citizens living in the Ozanam Home near by shine as bright spots in the history of the Rosary School. It was he who recruited dedicated staff, many of whom are still employed in the school.

A Jubilee is also an occasion to learn from the past so as to plan for the future. I have no doubt that the present staff and management will lead the school from glory to glory. May its bright light shine brighter every day.

Fifty Years - an eventful occasion for Rosary Sr. Sec. School. I am proud to have been associated with this great Institution for a while. It has been a long journey. I recall with gratitude the selfless work of the Pioneers. I admire the spirit of endeavour, optimism and hard work they put in along with the minimum number of staff, students and co-workers to build up this Institution.

The School has progressed in all spheres of the ideals with which it was founded. God has been gracious enough to bless the School in very many ways. With the Grace of God the School has groomed thousands of students who are alive and vibrant to the realities of life and sensitive to the needs of the fellow citizens. The values of a sound education system, which is a controlling grace to the young, consolation to the old and wealth to the poor, are being inculcated in the minds of the children.

I congratulate the management, staff, students, co-workers and all who are involved in the process of transformation on this occasion of the Golden Jubilee of the School.

It is a pleasure for me to send this message of greetings and good wishes to the Principal and Staff of Rosary School on the occasion of its Golden Jubilee year.

The motto of the school 'Let Your Light Shine' is symbolic of the Light of Education dispelling the darkness of ignorance.

Education does not consist of developing the intellect only, but in forming the total person, including heart and character. It is the means of passing down from generation to generation the spiritual values, which give meaning and substance to life.

The school has constantly endeavoured to restructure and remodel its policies and programmes keeping the myriad changes taking place in society. The objective of producing efficient citizens of society has been the hallmark of Rosary.

I take this opportunity to wish every Rosarian success and greater achievements in the coming years.

It is a matter of great satisfaction that Rosary Senior Secondary School, Radio Colony, Kingsway Camp, has completed 50 successful years in its service to the nation and people. No significant milestone of success is a bolt from the blue. This is the result of the dedication and commitment of so many people over the years blessed by the abundant grace of the Almighty and the powerful protection of Our Lady of Rosary. At this memorable junction I thank God Almighty and Our Lady of Rosary for the incessant divine providence.

I greatly place on record the selfless service of all the fathers, sisters, teachers, parents and well-wishers who have immensely contributed to the realization of this success over the years. From a humble beginning, our school has achieved great heights of success. I sincerely appreciate and congratulate every body who is involved in this magnificent growth of this institution. In a special way I congratulate the editorial team for the hard work taken up for the compilation of this Souvenir.

On the occasion of celebrating its golden jubilee, I greet the Principal and teachers of Rosary School and wish them all the very best in their continued service to the society. Rosary is not just a school but a vision for life and society; a compassionate and sensitive engagement with the empowerment of generations of students, especially those who are under-privileged. I have heard glowing reports of the humane approach that the school maintains, the inspired leadership it has been, and is, privileged with and the dedicated, distinguished teachers that serve there. On this significant and historic occasion, I wish the school all the very best and pray that the school may go from strength to strength and continue to be beacon on the educational landscape of the NCT of Delhi.

I commend the institution to the goodwill and unstinted support of the members of the public as well as those in governance so that its endeavour to serve the citizens of Delhi is facilitated and encouraged as it deserves to be.

May the school continue to remain the blessing and hope that it has been over the last fifty years of its life and service.

When I sat down to write this note of good wishes on the occasion of the school's golden jubilee, memories of the past rushed through my mind and I jot down a few of them here. Rosary School has been a major part of my life for over three decades. My daughter joined the school in its nursery class in January 1966, and along with her I too joined the school, being invited to do so by the then Manager-Principal, Rev. Fr. George Panackal. In 1966 the school had only the primary section, up to the IV standard, although the school had been established in 1958. Next year, when I wanted to leave along with my daughter who was then shifted to a well-established secondary school, I was prevailed upon to stay back by Fr. George to help him to 'build up' the school. My job was confined to 'building up the academic' part of school, while he concerned himself more with the 'physical' aspects. The magnificent structure of the school building bears testimony to his efforts in that direction. I joined as the class teacher of the V standard, which was started after I joined, and went up along with the same batch of students as higher classes were added year after year. From the very beginning, in academic standards, Rosary School surpassed many well-established and highly reputed schools as testified by its excellence in the 'Board exam results'. In 1975, the third batch of students from Rosary sat for the CBSE Higher Secondary exam and when the results came, the exhilaration that enveloped the school was remarkable, for one of our students, Rekha Yadav, topped the list of excellence among all the girls in the whole of India. It has been a saga of progress and excellence all through with many students in the 'merit list', year after year. When I retired in 1997 as the class teacher of standard XII, I could look back with an ample sense of satisfaction to a life well spent in the service of others through my students in Rosary. And for this I thank God and the Arch diocese.

I am confident that more glorious days await the school in all fields of curricular and extra-curricular activities through the efforts of its devoted teachers and the talents of its students. I am confident too that in years to come they will add brighter, wider and greater lustre to the emblem of the school : 'Let your light shine'.

It gives me immense pleasure to write this note of congratulations and felicitations to the management, Principal, Staff and all the students of Rosary Senior Secondary School, Delhi for attaining the coveted landmark of its 50th year of excellence in the field of education, very appropriately called a Golden Jubilee celebrations.

I had the good fortune to have been associated with this great citadel of education for well over two decades and had the privilege to contribute and witness the phenomenal growth in stature and reputation that this school made, not only in academics but also in sports, dramatics, cultural activities, character building and personality development of all young fledglings who entered this institute in search of their better and brighter tomorrow. Like a potter producing beautiful and polished utensils from worthless clay, like a painter moving his brush on blank canvas to create a panorama of colourful splendour, like a gardener who waters and nourishes saplings to grow fragrant flowers, this school took upon itself the onerous task of moulding tender and innocent lives into responsible and honourable citizens of this great nation.

I cherish the beautiful memories of my long association with Rosary School, the respect and acceptance that I so generously received from not only the faculty but also the students with whom I had the privilege to commune and interact with, and perhaps made a small contribution in preparing them for entering into this world of turmoil, struggle and great competition with confidence, integrity and vigour.

I enjoy in the fact that as a result of the hard work of all Teachers, Management and Principals, this Institute today stands on firm grounds and is, most probably the best school in this particular area, competing favourably with other institute of repute in this capital city of Delhi. I wish Rosary Senior Secondary School many, many years of success and achievements in future and may it continue to produce strong pillars who will take forward our nation into world leadership in all aspects of development and progress.

I would like to begin on a note of thanks to the Almighty for the past and placing ourselves under His protection and fatherly guidance for the future. We are not celebrating the fiftieth year but fifty years of striving, dedication, hard work and sincerity in our endeavour for providing quality education. Looking back on the past fifty years one has to acknowledge that this institution has done an excellent service.

The success of the school is due to many factors: an administration and staff that work together to continually assess needs, set goals and implement changes; the support and involvement of the school management, teachers, parents and community; and the vision shared by all participants never to be satisfied with the status quo, to be willing to change, not for the sake of change alone, but for the sake of providing students with the tools they need to become life long learners.

My conviction is that education is at its best when the school, parents and the students work together to realize a dream. Our regular parent-teacher interaction is responsible for the healthy environment and the mutual trust that exist between the shareholders of education parent, teacher, management and the student.

On the occasion of the Golden presence of Rosary Sr. Sec. School, I gratefully remember and pay respect to the stalwarts who showed real character and courage to build up this school namely the Principals : Rev. Fr. George D'Souza, Rev Fr. George D' Mello, Rev. Fr. George Panakal, Rev. Fr. E.D. Sebastian, Rev. Fr. Joseph Kudilil, Rev. Fr. Joseph Vadakumcherry, Rev. Fr. Dr. A. Alphonse. Besides them were those retired teachers and co-workers who really proved to be the backbones of this institution. I express my appreciation to various committees for efforts in making the Jubilee celebrations very meaningful.

GRAND FINALE

PRINCIPAL'S SPEECH

Golden Jubilee of any institution is a matter of great gratification. 50 years is an important milestone, and 50 long years of service to the cause of education surely reflects a long journey which can't be accomplished by one individual but many, each walking his mile enhancing infrastructure, empowering education, doing his best, taking the school from a humble beginning to the great heights where we are today. Here I would like to express my special thanks to Rev. Fr. George Panakal, the pillar and the main force to lay a strong foundation of the school. It was because of his untiring efforts the school could make a niche for itself. In my speech on the occasion of the inauguration of the Golden Jubilee celebrations I had taken pride in bringing to light the achievements of all the former Principals of the school. At the helm of the school development each one assigned himself a commitment daunting all spell of struggle and against all odds achieved the target. The school expresses its gratitude once again to all of them. Here I wish to remember Fr. E.D. Sebastian, one of the former principals, who is no more with us, and I am sure he, from heaven is witnessing this event.

I also take the occasion to thank the former managers, Vice Principals, headmistresses, teachers' office staff, co-workers anyone associated with the well being of the school. On this momentous occasion we bow our heads and thank them with a firm resolution to carry on their legacy.

We began the yearlong celebration on 31st Aug. 2007. The programme commenced with the Holy Mass led by His grace Archbishop Vincent Concessao. Nothing was more befitting than to invoke God's blessing to begin the season of jubilation. That evening witnessed the gala opening of Rosette a spectacular exhibition of Science, Art and Commerce. The evening passed over to the main focus - Cultural event - "Let Your Light Shine" - a ballet depicting inception, growth, principles and accomplishments of the school. We had the honour of having Dr. Kiran Bedi as the chief guest.

India has a rich tradition of giving a very high place to teachers. Thus 5th Sept. 2007, Teachers Day was celebrated in a very unique way-by inviting the retired teachers of our school. They were honoured in a special way and their presence in the school revived old memories.

Next event to follow was Rosary Day, that is 5th Oct. 2007, which was named as Sadbhawna Diwas. It was marked with Spiritual aura. Six religious leaders from different faith were invited to speak to the students about the essence of their religions.

Children are our assets. Hence 14th Nov.-Children's Day was celebrated differently. The students of St. Antony's primary school, Anandgram were invited to join the jubilation 2nd Jan 2008, witnessed another very important event in string of Jubilee celebrations. All the Diocesan schoolteachers were invited for half a day seminar cum carol singing.

Co-workers are the backbone of any institution. May 1st, on international labours day, our co-workers were felicitated.

One thing for which Indian culture is always appreciated is "the close knit family bond". The school has always been appreciative of the dedicated work of its staff members. Therefore to mark the special occasion-teachers day, the management thought it, quite befitting to invite all the family members of its staff, to a get together on 13th Sept. 2008. To mark the Golden Jubilee Year the school has donated a house to a needy person.

Having given a brief account of the yearlong celebrations I would like to bring the most outstanding accomplishments, which will remain as memorials to this celebrations. The era of information- technology has begun with a bang and our school is not to be left behind. We are proud to have smart classrooms in our nursery wing. Audiovisual room, model classrooms equipped with the latest teaching techniques are on the anvil.

In the realm of academics our students have been doing wonders. Neha Sachdeva did us proud this year by getting into AIIMS. Rahul Jain through DPMT secured a seat in UCMS. Joining them we have Himanshu Kumar who got into Maulana Azad Medical College. BBS and Bhavna Setia got in into BCE. They all deserve a big round of applause.

As the nation prepares for the forth coming Common Wealth Games, we here in Rosary in our own little way steel our students through different sports activities. Our sports star Nidhi Tiwari of Std XI has done us proud by winning championship at zonal and state level in badminton.

We are also proud of our dynamic alumni who after passing out from the portals of the institution, have excelled in different fields and have proven their track record. I wish them all the best. My sincere gratitude to the members of the management committee (both present and past) for their support and guidance.

I would like to mention a special name, Miss Prakash Manuja, for her dedicated service. She has been serving this institution for the past 38 years and has avail only single casual leave. Congratulation mam.

Our school is committed to the principle of fostering an environment where students are trained to accept challenges and face the competitive world. And more so they are guided to be genuine human beings. I am proud to say that our students are not far behind to extend their hand in helping the needy. As ever this time as well, when nature shows its fury and engulfed major parts of Bihar, they came forward and donated generously to bring some relief to the victims of this unprecedented calamity.

Before I conclude, I pray to God to shower all his blessings, very specially this evening. I also wish all the participants and the staff all the best.

At the World's End!!

The world as we all know is about evolving, moving on, shifting from one thing to the other, moving on from one topic of interest to another, because that's the way life goes on. We move from interests, friends, partners, hobbies, and what not. Similarly, we move on from one or the other speculation and thus, life goes on.

In the past, there have been a number of speculations generated by scholars and infected as quickly as wild fire by the media. There are various awareness waves as well but their importance doesn't consume much time to die out. However, this isn't the same with a few of them.

What started quite recently, a very thought provoking and interesting topic- The destruction of planet Earth, is one of such exceptional news. This has been making headlines for quite sometime now and already seems to have gripped the globe. This has been discussed by some world famous personalities so much so that I believe that every person present on Earth has formed an abstract theory in his/her mind, using personal logics about the final moments of our beloved planet. Some people laugh it off, some sneer at it and some shiver at its mention.

In the recent times, I have come across a number of such opinions, thanks to the hype created by media. Some of them can be termed as Varieties and the others as spoofs. Let us all have a look at some of them --

Meteorite or Asteroid Impact!

Scientists have predicted that in 2014, the Earth shall collide with a powerful meteorite, thus leading to the destruction of life on the planet. Most meteorites burn while entering the earth's atmosphere. However this one shall be strong enough to stand the friction. The strike of such a powerful meteorite can virtually seal a planet's fate and send us all to the home of the Almighty in no time.

However, by 2014, we hope to be well equipped with our nuclear technology which means that the path of the meteorite can be altered easily by attacking it with a powerful nuclear missile.

In the past as well, asteroids have been associated with the extinction of the Dinosaur species from the Earth and even today, such an incident has a potential to wipe out the life on Earth again.

The Big Crunch!

In the recent times, scientists have figured out an astonishing truth that the universe is still expanding. The proof being the calculated distances of galaxies from us at different times. Pictures show that galaxies are moving away from us. Some scientists say that this shall go forever, but some say that after some time when the gravitational forces of the dark matter start to weaken, then all the matter will come together and shrink back to nothingness. This phenomenon, which is quite opposite of the Big Bang is called the Big Crunch.

However, only time and science can tell if there is any truth to this theory or not.

Collision with Mercury or Mars!

Now some scientists firmly believe that planets shall never break their orbits. However, some say that once the sun starts losing its hydrogen in its core, its gravity shall recede. This can cause the orbits of the planets to tumble and eventually the planets may even collide. Speaking in terms of planet Earth, one small collision with either Mercury or Mars or even a rain of asteroids shall be enough to spell doom for the planet and for the life that it sustains.

Global Warming!

Scientists do not need to tell that Global Warming is taking place today. Human experiences have shown the drastic rise in temperature globally such that there was grass spotted on the frigid continent of Antarctica; the North Pole is prophesied to be ice-free by this summer, etc. We all experience the rapid and tremendous climatic changes taking place today but do not do anything to prevent or stop it. However, scientists have warned that if the rise in temperature is not controlled or stopped, it would start melting the frigid ice-sheets and polar ice-caps and glaciers of Antarctica and the Arctic. (The Arctic is already predicted to lose all of its ice and snow by this year!) This would mean a rise in the level of the sea, which would lead to the flooding of low-lying coastal areas. Also, drastic changes would mean that even the world's tallest building shall be submerged 100m deep in water!!!

Ice-Age !

Recent astronomical recordings and pictures obtained by the U.S. Solar and Heliospheric Observatory showed no sun-spots, which means that the sunspot activity of the sun hasn't recovered after falling to a 11-year low, last December. This led to significant cooling last year with the average temperature dropping by 0.7°C. If this phenomenon persists, we shall see-inconsiderable cooling in the coming few decades. Scientists have thus concluded that forget about global warming, the world might just be heading towards a possible ice-age, where the sustainability of life remains uncertain. There is another theory which says that a time shall come when excessive toxic gases like CO_2 , SO_2 , CH_4 , water vapour and dust shall form a blanket in the upper layers of the atmosphere disallowing sun's heat radiation to enter the Earth. This would surely mean an inevitable decline in world temperature and send us all shivering into a certain ice-age!

Sucked And Swallowed !

Few scientists say that the Milky-Way rests on a small black-hole which lies somewhere near the centre. When this black hole shall be big and its magnetic or gravitational forces shall be strong enough to swallow anything that comes in its way, you never know when we might just end up all black, and swallowed inside a black-hole!

There is yet another theory which says that our sun shall expand into a big red-giant star or even a red-super giant star, when it uses up all of its hydrogen for nuclear fusion to take place, and generate helium which is the life-giving force of the sun. If such a swelling of the sun takes place, then it shall definitely not pardon the blue-planet, along with the other closest planets of our solar system. Therefore, both these (horrible) theories are waiting to be proven right.

The Take Over !

Enough of these hypothetical theories ! The scientists or astronomers don't support these. But the poets and fiction writers definitely do! Throughout the past decades, a number of writers have been suggesting some unique takeovers that might spell doom for the planet. We all have been waiting for a time when, Artificial Intelligence shall show its magic in computers and we shall have access to human-friendly robots. But consider a situation, where they decide to take over the rule of the planet from us! A very famous writer once imagined the Third World War, as a war between Robots and Humans. As the story goes, the robots, with their superior intelligence and power, shall ultimately send the Homo Sapiens to their trip to destruction. Another story says that in our bid to find another life, or establish contacts with aliens, we might accidentally chance upon hostile and more intelligent life-forms (Venus Invaders, Martian Man-hunters, etc.) and they shall be determined to wipe out the entire human race or even in extreme cases, blow up the entire planet!

The Third World War !

Einstein said, "I don't know about a third world war, but if there is ever a fourth world war, then it shall be either fought with plants or with sticks!" If fortunately for us, none of the previous theories work, this one certainly will. In our bid to exercise more control and power and with the given nuclear capacity and power with all countries of the world, a third world war shall terminate the human species and lead to the total destruction of our Blue Planet.

It is, of course, a nature's axiom that, 'anything that lives today shall perish tomorrow'. So, one of those speculations about our doomsday might be true. However, what actually matters is how we live today, what we do today, so that of all odds, we are able to fight off anything and everything hostile, which may happen tomorrow!

TEENAGE, THE AGE OF

Teenage is the age of desire when we want to stand higher.

Teenage is the age of distractions when our life is full of attractions.

Teenage is the age, very great, it is when we prepare to write our fate.

Teenage is the age of attention when our heart and mind work in unison.

OUR

SCHOOL

Our school is an institute where the Loving and Caring hands of our Teachers show us the way to succeed. Our Teachers enlighten us and help us to fulfil our dreams. All of us studying in Rosary Sr. Sec. School are learning many things besides academics & take pride in being called the "ROSARIANS". The school is now celebrating its Golden Jubilee Year. We are grateful to our Teachers & with their vision we shall surely add joy to the world.

Education As Of Today

Education, as Latin word- 'educatus' which means 'reared', means systematic instructions given intellectually, morally and socially for a particular purpose has been deviated from its stand. Its scope has been narrowed down. It has become self-centred aspect of life instead of vitalizing its principal motto. Parents have propagated their own theories of education. The drastic change in the modes of living has compelled them to think so.

To get good marks and secure a highly paid job is the aim of every parent. Parents are putting more and more pressure on

their children. Is getting good marks in examinations more important than a student's life? Now - a - days, we hear of students committing suicide for not performing well in exams.

Is this what we call education? Well I don't think so. Yes, it is true that it is a path that takes us to bright future but due to cut throat competition students often start to memorize lessons which is not beneficial at all. There should be some changes in our education system so that studies should not become a burden.

TRUE wisdom

- Never think or speak negatively about yourself that puts you in disagreement with God.

- Meditate on your God given strenghts and learn to encourage yourself, for most of the time nobody else will.
- Don't compare yourself to anybody else. You are unique, one of a kind, an original. So don't settle for being a copy.
- Focus on your potential, not your limitations. Remember, God lives in you!
- Find what you like to do, do well and strive to do it with excellence.
- Have the courage to be different. Be a God pleaser, not a people pleaser.
- Learn to handle criticism .Let it develop you instead of discouraging you.
- Determine your own worth instead of letting others do it for you.
- Keep your shortcomings in perspective, you're still a work in progress.
- Focus daily on your greatest source of confidence - the God who lives in you!
- Instead of concentrating on what you haven't got-focus on what you do have and appreciate what you have got before you can focus on getting more.

LIFE

*Life is a journey
People come and go .
Some are as sweet as honey,
Life is short, as tiny as a dot
Time is passing through,
Do as many good deeds as you can,
Thank God for your lovely life,
It is made of different kinds of spice.
Sometimes angry, sometimes sad,
So many emotions and
the wonderful moments you have had.*

GOD HELPS THOSE WHO HELP THEMSELVES

Self help is a precious tool for progress in man's life. To get desired results one needs self participation, labour and very strong will. If we do not successfully complete our work, even God will not come for our help. We should do everything ourselves without relying upon others. Hard work always gives us good results. Self help gives us confidence and builds our character. Problems should not be allowed to overpower oneself. The habit of self help should be nourished from the beginning of our childhood. We should not depend on others for the fulfilment of our goals. We have to work ourselves. Only then, God would help us in achieving success in life.

THE BEAUTY OF MOTHER'S LOVE

*Like flowers in the window,
Make a very lovely sight,
Like sunshine after rain clouds,
Makes the world so warm and bright,
Like the tilting flights of butterflies,
Bring pleasure and delights...
There's beauty in mother's love too.
Like melodies of song birds,
Fill the spring time skies of blue,
Like each dawn is reflected,
in the fields of sparkling dew,
Like soft green grass and gentle breeze,
Make the world seem fresh and new,
There's beauty in mother's love too.*

Motivations For A Good Year

"SUCCESS"

"Successful is the person who has lived well, laughed often and loved much, who has gained the respect of children, who leaves the world better than he found it, who has never lacked appreciation for the earth's beauty, who never fails to look for the best in others or give the best of himself".

"ACHIEVEMENT"

"The credit belongs to those people who are actually in the arena Who know the great enthusiasm, the great devotion to a worthy cause; who at best, know the triumph of high achievement; and who, at worst, fail while daring greatly..... so that their place shall never be with those cold and timid souls who know neither victory nor defeat".

"MAKE IT HAPPEN"

"Greatness is not in where we stand, but in what direction we are moving. We must sail sometimes with the wind and sometimes against it - but sail we must and not drift, nor lie at anchor."

"POWER OF ATTITUDE"

"Our lives are not determined by what happens to us, but how we react to what happens to us; not by what life brings to us, but by the attitude we bring to life. A positive attitude causes a chain reaction of positive thoughts, events and outcomes. It is a catalyst..... A spark that creates extraordinary results."

"EXCELLENCE"

"Excellence is the result of caring more than others think is wise; risking more than others think is safe, dreaming more than others think is practical and expecting more than others think is possible"

"POWER OF BELIEF"

"Believe in yourself. You gain strength, courage and confidence by every experience in which

you stop. To look fear in the face.... You must do that which you think you cannot do"

"TEAM WORK"

"Team work means that we share a common ideal and embrace a common goal. Regardless of our differences, we strive shoulder to shoulder, confident in one another's faith, trust and commitment in the end, teamwork can be summed up in five short words.... "We believe in each other".

"BELIEVE AND SUCCEED"

"Courage does not always roar. Sometimes it is the quiet voice, At the end of the day saying, "I will try again tomorrow".

"POSSIBILITIES"

"Within me is infinite power before me is endless possibility; around me is endless opportunity..... Why should I fear?

"INTEGRITY"

"Integrity is one of the several paths. It distinguishes itself from the others because it is the right path and will never get lost".

"LIFE IS A JOURNEY"

"In the end, each of us will be judged by our standard of life, not by our standard of living; by our measure of giving; not by our measure of wealth; by our simple goodness, not by our seeming greatness".

"IMAGINATION"

"What we can easily see is only a small percentage of what is possible. Imagination is having the vision to see what is just below the surface; to picture that which is essential, but invisible to the eye".

TOP TEN THINGS AN INDIAN DOES AFTER RETURNING TO 'INDIA' FROM 'UNITED STATES'

1. Tries to use Credit Card at a roadside hotel.
2. Sprays Deo such that he does not need to take bath.
3. Says "Cookies" instead of "Biscuits", Says, "Got to go" instead of "Have to go".
4. Tries to figure all the prices in "Dollars" as far as possible.
5. Makes fun of Indian Standard time and Indian Road conditions.
6. Avoids eating more chilli (hot) stuff.
7. Tries to complain about anything in India as if he is experiencing it for first time.
8. Looks suspiciously towards Hotel / Dhaba food.
9. Even after four months of arrival, does not remove from the luggage bag the stickers of Airways by which he travelled back to India.
10. Tries to begin conversations with "In the US" or "When I was in the US"....

An Eternal Treasure Chest

Once upon a time, a brave man crossed the greatest oceans of the world, climbed the tallest peaks, and braved all sorts of danger in search of the world's happiest man. His question was "What's the secret to eternal happiness?". The man answered just be yourself. Since ages humans have tried to modify their environment so that they can gain as much comfort as they can. It's natural for any human to possess this ingenious instinct. There is no harm to look for better options. But the problem arises when we crave for more and more and become so obstinate and adamant in our demands that we tend to forget that true happiness can never be drawn from worldly things. Well, this does not mean that you become a hermit and run towards the jungles. You can draw happiness only when you give others happiness. This golden rule is as true as the Law of Conservation of Mass and as practical as Newton's third Law of Motion. So the only way to be happy is to simplify your complex life. Try to understand, that there are others too who are unhappy. You are not the only suffering soul in the world. Since we know minus and minus make a plus, so we should realize that only humans can end human suffering.

A DREADFUL DREAM

*Everything was delightful, thrilling and awesome,
There was nothing to be considered loathsome,
Each flower bloomed as a dazzling star.
The water streams ran majestically far.
With multi-colours the rainbow gleamed,
How pleasant the things seemed.,
Society was added to the environment by cephyrs,
The world was full of sly men and satyrs.*

*But rumbled the environment was suddenly,
The aura seemed to be plagued fatally,
A ghost or a devil it may be,
But was the toughest to overcome you see,
It came as a wild ravager,
Ruined every sweet little creature.
Don't you recognize? It was the destructive terrorism,
For the nature it acted as phantasm,*

*All were outangled by the cruel terrorists,
Harmony and fraternity was smitten by the pessimists.
I was dejected to poor this situation,
This immediate break up of religious, relations,
Then suddenly felt a sound in my ears,
My eyes widened up with fear and tears.*

*I was overwhelmed and took a sigh of relief,
For the world was not truly in grief.
Perhaps I visualized the traumatized future,
Which might be in the hands of the ultimate butcher,
So let's no more sow those bitter seeds,
Please, oh please understand the future's indispensable needs!!!*

On the morning of 26 December,
Occurred a disaster which no one wants to remember
It claimed countless lives and caused massive destruction
Damaged homes and offices beyond reconstruction,
It affected countries across Asia.
Ravaging millions, from India to Indonesia.
The waves that crashed on to the shores were enormous,
And led to consequences that were disastrous.
It was certainly an event that caused a lot of pain.
And I hope that it does not occur again.

NATION ABOVE EVERYTHING

'NATION ABOVE EVERYTHING' is a patriotic feeling that every countryman must have. Serving the nation is not a sacrifice but a privilege. Do you want the next 50 years to be like the last 50 years? Character building doesn't start when a child is born. It starts 100 years before a child is born. Our youth does not form 100% population of the country. But they do form 100% future of the country. Don't they?

The objective of the country first is to ensure good governance to good people and good laws. Its aim is to win respect and dignity for every Indian.

Many times you hear people saying, "I want to stay away from politics because politics is a dirty game." Well, my answer to this is there is no dirty game. There are only dirty players that's all.

If you want to see a better India we need to do 3 things. One, every citizen must become a soldier for the nation. A soldier not only sacrifices for the nation but is also, willing to stop those who destroy the nation. Two, if an honest citizen goes to jail, unjustifiably, the whole nation should be ready to go to jail. Three, we must free this nation of the corrupt breed of traitors who are ready to sell the country for personal gain.

A nation doesn't become great by shouting slogans. It becomes great when citizens do great things.

Mahatma Gandhi, in an address in Madras in 1920, said, "Cooperation is a duty only as long as the government protects our honour. Non-cooperation is an equal duty when the government, instead of protecting, robs us of our honour."

Hops, we will celebrate another independence day in our land where citizens will live with respect and dignity.

In the last, I just want to say

"IF OUR COUNTRY LIVES,

WE LIVE..."

BECAUSE

A True Recollection of Girl Who Died in Car Accident

I went to a party, Mom,
I remembered what you said.
You told me not to drink, Mom
So I drank soda instead

I really felt proud inside, Mom.
The way you said I would
I didn't drink and drive, Mom
Even though the others said, I should.

I know I did the right thing, Mom,
I know you are always right.
Now the party was finally ending, Mom.
As everyone was driving out of sight.

Now, I got into my car, Mom
I knew I'd to get home in one piece.
Because of the way you raised me,
So responsible and sweet.

I started to drive away, Mom.
But as I pulled out into the road
The other car didn't see me, Mom
And hit me like a load.

As I lay there on pavement, Mom,
I heard the policemen say.
"The Other Guy is Drunk," Mom
and now I'm the one, who will pay.
I'm lying here dying, Mom
I wish you'd get here soon.
How could this happen to me, Mom?

My life just burst like a balloon
There is blood all around me, Mom
and most of it is mine!
I hear the medic say, Mom, I'll die in
a short time.

I just want to tell you, Mom
I swear I didn't drink.
It was the other, Mom
He didn't think
He was probably at the same party as I,
The only difference is that, he drank

and I will die!

Why do people drink, Mom?
It can ruin your whole life
I'm feeling sharp pains now.
Pains just like knife.
The guy who hit me is walking, Mom
And I don't think it's fair
I'm lying here dying
And all he does is stare.

Tell brother not to cry, Mom
Tell daddy to be brave
And when I go to heaven, Mom
Put "Daddy's Girl" on my grave

Someone should have told him, Mom
Not to drink and drive.
If they only had told him, Mom
I would still be alive.

My breath is getting shorter, Mom
I am becoming very scared.
Please don't cry for me, Mom
When I needed you, you were always there

I have one last question, Mom
Before I say goodbye
I didn't drink & drive.
So, why am I the one to die?

Please Don't Drink & Drive,.....

SCHOOL LIFE

School life is great fun
 But books, copies and bags
 heavy on our backs,
 make us a bit sad.
 But on reaching school
 all tiredness moves away soon
 morning prayers, ringing bell,
 noisy gossip and stupid pranks.
 That's what school life is.
 Yes it's cool and nice.

MY SCHOOL IS BEST

My school is best, My school is best
 Principal preaches, teacher teaches
 Everything here is great.

Beautiful ground, sweet sound
 We play here round and round
 My school is best, my school is best.

Friends are nice, teachers are wise
 Laughter, fun, joy, and surprise
 My school is best, my school is best.

Only problem is exam and test
 My school is best, my school is best.

If You PLEASE.....

Late night parties in hotels five star
 Raring race with friends in speedy car
 It's all fun, it's all game
 No one to check, no one to tame
 Late to bed and late to rise
 You think it's so nice and so wise
 Once if you please, walk with me
 To the green fields in stark glee
 To behold the sunrise painted with divine brush
 Splashing such colours to give anyone a crush
 You stand and wonder at the crimson hue
 Yellow mustard and flowers covered with dew
 Once if you please, walk to the crystal brook
 Meandering through valleys and trill of rook
 Rushing as if to hear from a mew
 You are spellbound to see the view
 Once if you please, tread with me the mountain top
 What fun it will be to run and hop
 You will feel so close to nature amidst lofty pines
 Relish what she gives you to dine
 Walk with me if you wish
 To a pond to see the fish
 Rainbow colours you will enjoy
 Such mirth as no one can destroy
 I see, now you have a new toy
 Mobile of which I am a bit coy
 I wonder how one can keep it on ear
 And talk on and on to friend and peer
 If you please, leave it for a while
 And walk with me half a mile
 To a valley lined with pine
 What peace as you come to a shrine
 Ambience so rare to find

Refreshing your starved soul and mind
 Each breeze brings you close to divinity
 Breathing peace and serenity
 I remember the monk, his Ferrari he sold
 Leaving all charm of silver and gold
 To enjoy such eternal bliss
 He came to our land a place like this
 My dear, here you may for a while tarry
 To refresh your spirits and be merry
 Then your steps back you may take
 To the world that is all fake
 For, I choose to make my abode
 Here, to begin life in a new mode
 Away from foghorns of motor car
 Blasts of terror and fatal war
 Where it's money that your status makes
 Where it's lure of gold that relation breaks
 But never call me an escapist
 I just wish to be an analyst
 Of right and wrong of my own doing
 Sit in peace under a tree musing.

MIGHTIEST KING OF THE WORLD

Once there was a lion who lived in a jungle. He was very strong and powerful. He roared like thunder storm. One day he left his den for a walk. All the animals ran here and there to save their lives. But a mosquito was singing and enjoying in the way of the lion. A sparrow warned him and asked him to stop singing and go away. The lion became angry to see the mosquito in his way but the mosquito took it as a challenge and entered into the ear of the lion. The lion could not counter attack the mosquito and ran away from there. The mosquito was filled with joy and was proud. He considered himself as the king of the jungle. As he was strolling carelessly he was caught in a spider's web. The spider came and ate him with joy.

Moral- We should not be proud of ourselves because no one in this world is mighty except God.

ROSARY IS THE BEST

School, School, I love my Rosary School
There is so much to learn,
There is so much to do,
Drawing, painting, reading, writing,
Action, active all the time
Keeps us healthy- Shapes our mind
I love my school,
I love my Rosary School.
Rosary is my school's name,
We all try to bring up its fame.
The teachers are very fine,
I am proud to call it mine.
The teachers are very kind,
They all have a brilliant mind,
I love this school,
It is mine, mine and mine

From Cricket to Badminton, **NIDHI** has all the Answer

Nidhi Tiwari was 11 when she swapped bat with racquet, and as it turned out, cricker's loss was badminton's gain.

There was no looking back for the Delhi girl, who learned the nuances of the sport at the Ludlow Castle Academy.

In October last year, she was crowned champion in both under-16 and under-19 categories at the Pramod Mahajan Tournament. In December, she led the Delhi under-16 team to a silver medal at the 53rd School National Games. She also won a bronze medal at the All India Women's Festival.

This year, the 15-year old Nidhi became champion in the women's singles category as well as the under-19 girls' section at the 19th Tirath Ram Memorial Badminton Tournament. Incidentally, the opponents she defeated in the two finals - Nupur Sachdeva in the women's singles and Shraddha Srivastav in the under 19 category - also trained at the same academy. Nidhi says they are great friends off the court, but on it, it's all about winning.

"In fact, I just concentrate on my game and don't think much about who the opponent is. When I step on to the court, I am only thinking about winning."

Gifted as Nidhi is, she has also put in a lot of hard work to reach a stage where she is coming up with impressive shows consistently.

"It feels great that my hard work has paid off. I've trained very hard and my coach, Arun Khanna, has helped me a lot. He's not only my mentor but also my idol.

"Had he not been there, I don't know if I would have been playing that well," says the Class XI student from Rosary School, Secondary School.

Nidhi has set very high goals for herself, and in the next two years, she wants to be the national champion and represent India internationally.

"Technically, my game is sound. I hit powerful shots and am quick as well, but I lack endurance.

"I need to concentrate on my physical fitness and work hard on my stamina," she says.

Fellow shuttler Nupur heaps rich praise over Nidhi. "I played some sloppy shots in the under-19 final against her but Nidhi deserved the victory. I even take a few tips from her. She is a quick learner and has a bright future ahead."

Approaching DOOM?

Our planet's prospects for environmental stability are bleaker than ever. Let's find out what it is going to be like...

Climatic Changes

Climatic change is one of the greatest environmental, social and economic threats facing the planet.

The warming of the climate system is unequivocal as is now evident from observations of increases in global average air and ocean temperatures, widespread melting of snow and ice, and rising global mean sea level. The earth's average surface temperature has risen by 0.76°C since 1850. Most of the warming that has occurred over the last 50 years is very likely to have been caused by human activities.

Projected global warming this century is likely to trigger serious consequences for humanity and other life forms, including a rise in sea levels of between 18 and 59 cm which will endanger coastal areas and small islands and a greater frequency and severity of extreme weather events.

Human activities that contribute to climate change include in particular the burning of fossil fuels, agriculture and land use changes like deforestation. These cause emissions of carbon dioxide (CO₂), the main gas responsible for climatic change, as well as other greenhouse gases.

DAD DEAR DAD

I love you, dear dad,
Without you I am always sad
At the time you are beside me,
You always keep me happy and free,
Under your care I learnt to crawl,
And you rescue me from every fall.

I recall the day, when my schooling began,
I held your finger and happily ran,
I would never forget all,
Two years, dear dad,

For all your love and affection,
I thank the lord,
Love to my wonderful dad,
And My wonderful dad....

Love to my wonderful dad,
And My wonderful dad....

FROM

The pen of our green ambassador

The Aravali Foundation for Education (AFE) is working relentlessly to promote Environmental awareness among students all over the country. It organised a vacation program for the students of various schools this year. By virtue of talent and hard work I qualified the rigorous test schedule. On 25th November 2007, we appeared for a written exam and around 180 students took up this test. The selected Green Warriors were called for a group

discussion.

Although, I was a bit nervous but the force behind me- God and my family members pumped confidence into me. I crossed the hurdle easily.

20th December 2007 was a very significant day as all the Green Ambassadors of various schools marched hand in hand to explore the city of Delhi. The 1st module made it possible for us to visit the Yamuna Biodiversity Park, National Zoological Park, Central Pollution Control Board and Sonia Vihar Water Treatment Plant. The module culminated with a session with the Honourable Chief Minister of Delhi, Smt. Sheila Dixit.

The 2nd module was a trip to Himgiri, Himachal Pradesh. An overnight journey to this place by deluxe coach was fun filled. On 27th March 2008, we reached the place and were allotted tents. Our guides took us for many outdoor activities like planting saplings, trekking, nature trail and obstacle race. Our group, named "VERSATILE", was the overall winner. On 29th March 2008 we visited a village named 'SHIBONG' and we exchanged our views on culture, health, education and economic development with the villagers. It was very enriching. At night we all enjoyed the campfire dancing, singing, and cracking jokes. We all made a presentation on our entire module. On 30th March 2008 we reached Delhi with a different style and statement. We had come very close to nature. It was a lifetime experience. I earnestly thank my Principal Rev. Fr. Sabu Joseph, Headmistress Sr. Ann Jose and our Eco-Club coordinator Mrs. Punam Narula for giving me this opportunity.

THE GRAND CASTLE

One of my earliest memories is of
my father leading me into a grand palace.
A person was sleeping nearby,
giving the message of giving up malice.

He introduced me to the person
who lived in all that grandeur,
I was all eyes, for I really
loved the beautiful magnificent chandelier.

I instantly fell in love with Him,
He was my new friend.
He was there with me all the time,
And I talked to him from morning till the day's end.

Then, when I was 8, my mother gave me a book.
She told me that my friend would love it.
I had never understood anything in it,
But just to please Him, I did it.

His feet walk beside mine,
His heart beats along with mine,
In his custody, are all my feelings,
Emotions, failures & successes consigned.

Lately complained that I never had
a best friend, not realizing HE was the one,
But I do now. I no longer live
under this wrong impression.

Like a cloud has lifted,
I realize today what I then mistook.
The word 'Gurudwara' has replaced 'palace', &
'Guru-Groth Sahib' has replaced 'The book'.

As for HIM, in every part of the world,
people have given him a different name,
Call him Allah, Waheguru, Lord or Ram,
In ev, He is just my best friend.

Fun

A summer noon
An air conditioned room
Four friends
Pillow fight
With all their might
THAT'S FUN.

A winter day
'Coffee Cafe Day'
Friends and me
Sipping tea
THAT'S FUN.

A hostel room
Maggi noodles
Big delight
In the middle of the night
THAT'S FUN.

Four old friends
Four different cities
Meet after years
With eyes full of tears
THAT'S FUN.

**LOVE AND RESPECT YOUR FRIENDS AND
STAY IN TOUCH ALWAYS.....**

THE POSTMAN

Bring me a letter, postman!
Bring me a letter, do!
Tomorrow at the garden gate
I will wait for you.
Bring one from a fairy
Who says she'll come to tea.
Then I'll put on my party frock,
How lovely that will be!
And please, oh! Mr. Postman,
If fatter you know none,
Write me a letter yourself.
And bring it, just for fun.

ROSARY SCHOOL LIBRARY

Waddling to explore my prodigious school building like a vagrant soul, I was halted by the magnetism of a certain room. Unable to read the board displayed outside that room (my ability to combine alphabets make into words being almost seated at the nadir at that time.), I dropped in to find out which room it was. I saw numerous students, each one in deep contemplation like devotees meditating upon the idols of their respective deities; their expression speaking a thousand tales, their lips yet silent and their minds lost in a world far from this one. I mumbled to myself, 'what place is this' (obviously not expecting anybody to answer my questions). Surprisingly, I got a reply. Some voices said to me, 'You are in a LIBRARY, the temple of diligent readers'. Then a rumour of blabbering followed. I followed the voices which led me to cavernous room with scores of bound pages lined in a visually appealing manner. Although I was too young at that time but I was smart enough to figure out the speakers who were calling out to me each one eager to tell its own story. Some of them in the pinnacle of their prime, while some oozing with wisdom and basking in the pride of amazing and delighting countless hearts and minds and also making crystal clear why drops to part from gazing eyes. There were yet some others who had already crossed the first stage and were progressing towards the second. However wrinkled the face of a book was, each one's ability to enchant the prospective reader was equally powerful. And I presume that you would have also guessed it by now.

Rosary School library is a spacious one. It consists of two rooms. A huge reading room and an equally big book section that is home to 20,000 books including 8 periodicals, 300 dictionaries, over 1000 encyclopaedias including reference books, year books, almanacs, atlas books and several others which my pen refuses to substantiate upon for it has so much more to say. I might strike to the reader that searching a book in the library must be a cumbersome task. But let me tell you that it is not! Thanks to the priestess of this temple of learning - **Ms Prakash Manuja** - a gentle lady whose soft voice is considerate of decibel levels.

The library has come a long way since a major setback - the devastating flood of 1978 that submerged the entire book section destroying almost every book. However, considering the present glorious form of the library, it is nearly impossible to calculate the damage caused by the angry waters.

In a bid to keep pace with the modern technological advancements, our library has installed a computer and is progressing towards 'Full Computerization'. About 4/5th of the books have already been entered in the computer, thanks to the great efforts of **Mr. Deepak Mampai**. Students are already benefiting from the educational software installed in the Library's computer such as Encarta, Britannica, Human body, Universe, Nature, Shabdikosh, Oxford and Longman Dictionaries to name a few. During library periods students also enhance their knowledge through slides.

Countless years have rolled by without my noticing how fond I have grown of this library and how much it loves my presence. These books have grown to be my friends. And I cannot imagine the void that will be created in my life as my merry days in the school are soon coming to an end.

Brief chat with Principal

- 1) **What do you see when you look into the mirror?**
I am sure, it's not the real 'me'- just an outward appearance.
- 2) **Any regrets in life?**
So far none.
- 3) **Why did you choose to become a priest?**
To be of service to God in serving His people.
- 4) **Why did you join the navy?**
To serve the nation.
- 5) **How was the navy life like?**
It was a strict and disciplined life but I enjoyed it.
- 6) **Moment of desperation?**
Yes, I did experience a couple of such moments.
- 7) **How do you spend a working day?**
In fulfilling the tasks the Lord has assigned to me.
- 8) **When does your birthday fall and how do you celebrate it?**
On December 20th, Nothing extra ordinary, I thank the Lord for the gift of life He has given me, receive wishes from dear & near ones.
- 9) **A happy incident from your life?**
The day when I was ordained to be a priest.
- 10) **The most fearful moment of your life?**
The day when my bike skidded and I was thrown off but escaped with a few bruises.
- 11) **What did you think about our school before joining it?**
I had no idea about Rosary school in the past.
- 12) **What have you achieved after joining this school?**
I am just getting used to everything & am still to achieve many things. But I have a lot of satisfaction that whatever I've begun with, is working out very well.
- 13) **Who is your role model?**
Lord Jesus Christ, of course.
- 14) **What do you think about the teenagers of today, ie, we people?**
The teenagers of today have a lot of potential in them but it needs to be channelised properly.
- 15) **What is your message for us?**
You have plenty of opportunities in life, try to seize them and let them not go waste.
- 16) **What are your hobbies? Do you get time to pursue them?**
Collecting antiques and old coins. Yes, of course.

Environment Days to be Remembered

Some important days related to environment are mentioned below. Such days if observed by us in our school through special assemblies would definitely help bring us closer to nature.

February 2	World wetland day
February 28	National science day
March 21	World forestry day
March 22	World water day
March 23	World meteorological day
April 7	World health day
April 18	World heritage day
April 22	Earth day
May 31	Anti tobacco day
June 5	World environment day
July 11	World population day
September 16	World ozone day
September 28	Green consumer day
October 3	World habitat day
October 1-7	World wildlife week
October 4	World animal welfare day
October 13	International Day for natural disaster reduction
December 2	Bhopal Tragedy day

On this world environment day eco-conscious Rosarians resolve to...

1. Shun plastic bags, use jute or paper bags instead.
2. Travel by trains rather than flying.
3. Shut down the computer instead of keeping it on stand-by.
4. Adopt rain water harvesting.
5. Use CFL instead of incandescent bulb.
6. Cut intake of imported fruits and eat only locally sourced seasonal fruits.
7. Go for Car pool
8. Run the A/c at a temperature higher than desired while keeping the ceiling fan on.
9. Plant trees in neighbourhood.
10. Protest if any one of the above resolutions are not observed by people.

The Station

Waiting for the train
at 1, at the station
making, remaking plans
for the remaining vacation.

lights seen
interrupted and intervened
in thoughts.

To my left
is a leper couple
loving each other
one by turn.

To my right
a poster
of his work
in his afternoon namaz.

Inside
is haste and bustle,
a toddler
and chasing a dog
while his sleepy mother
does it away.

As the train buzzed in
nothing
as everyone was activated -
smack by four forty watts.

Amble for seats,
colossal announcements,
ads, hawkers, posters
signs, passengers-
going and parting
on it without emotions.

Too late
we added stray cattle and dogs.
we fought for leftovers
then slept like logs.

Waiting is stationary
in the station.
In here is the same
hazy day every season.

Coorning heart to hearts
in cities,
one to states.
The slow trains
of India
in the rails.

A Wonderful Day in A Boring School

Just a wonderful day I feel,
My heart is telling me to,
Take the beauty which my eyes can steal.

Flowers bloom on tall trees,
Flowing rivers meet the seas.

All the flowering colours glow,
Filling my eyes with a rainbow.

My heart is telling me to sing
And dance, and I replied,
"Please give me a chance".

But my teachers stop me from doing so,
And my voice is now "oh-no-no".

When I looked out the window,
To see nature's dance,
A beautiful fragrance caressed me

Birds are flying up and down,
Flapping their wings on-and-on.

Just then rang a bell,
And I remembered the words my
Mother used to tell.

"This beauty I keep in mind,
God who made this, is really kind.
In future the days will be sunny,
And to see trees,
We would have to spend money."

But I feel so unlucky,
As I can't spend my day playing,
With butterflies, and sparrows,
God's special gift of nature.

Because I have to come to school,
And this is a boring rule.

And now I am going back home,
So that I can freely roam,
And forget this boring school
At least for the rest of the day.

Contemporary Love

Modern day love affairs are tales of sad distances,
Of people drifting farther, drowning into tears and losing all senses.

They are tales that make you feel unworthy and helpless,
Driving you crazy on a path away from happiness.

It's a strike of betrayal with the sharpest dart,
It leaves even the strongest with a broken heart.

It's impossible to decide if experiencing it is good or bad,
And if you still haven't faced it, you have a reason to be glad.

For it makes your decisions stronger yet softer from the eyes,
Tears come rolling down as fast as melting ice.

There's a lot of instability; it's a roller coaster ride,
It's with vicissitudes, with dissatisfaction beside.

One gets into it as the status "committed" gives recognition,
But how to get out of it is difficult to answer; always beyond explanation.

Don't make the irreparable mistake of falling into it,
It's a devilish trap, a luring but dark and deep pit.

Sometimes I still feel the bond within me even after we've parted ways,
But what bond was it? It just lasted for a few days...

UNBORN GIRL CHILD'S WOE

Mother, I am your daughter,
 How would have you felt if you had been slaughtered?
 I was so happy to get life,
 But you want to wrench it away with a knife.
 Am I so bad that I have no right to live?
 Who gave you the right to kill?
 Why your heart has not melted?
 Are you so imperious to hear what I feel?
 I am still in despair,
 To hear that it's you who wants my death,
 Your mother also gave you birth,
 Still you don't know a female's true worth?
 I thought you would give me unconditional love,
 Only to know that you can only bluff.
 You don't heed to my cry,
 As you desire a boy.
 But mother, I will always be there for you,
 All I want is your lovely kiss.
 Mother, I am as precious as a boy,
 I also want to live, love and enjoy.

TRAVELLED A LONG WAY

You must have seen cactus plants in gardens in Delhi, but very rarely does a coconut tree grow so easily, when it has been brought from far, far away 'Kerala'. Well, it was our founder Principal Rev. Fr. George Panakal who brought this little sapling and planted it in a place he cherished - yes, Rosary Sr. Sec. School at Radio Colony, Kings way Camp, Delhi. The most surprising part is, it actually bears coconuts!! So, who said that coconut trees cannot grow away from the sea. So as in our life too if we create a favourable climate for ourselves, we can grow wherever we are planted. Now, as we have already celebrated our "Golden Jubilee Year" these coconut trees are almost fifty years old!

THE WAY TO ETERNAL HAPPINESS

Trees give shade for the benefit of others, while they themselves stand in the sun and endure scorching heat, they produce the fruit by which others profit. The character of a good man is like that of a tree. What is the use of his body if no use is made of it? It is made for the benefit of mankind?

Sugarcane - the more it is peeled and cut into pieces the more juice does it yield. Sandalwood - the more it is rubbed the more scent does it exude. Gold - the more it is burnt the more brightly does it shine. Men who are noble at heart do not lose these qualities even in losing their lives. Life is really profitable to a man who does live for others. Those who live down their lives for the sake of friends or even for the sake of strangers will assuredly forever dwell in the 'World of Happiness'.

BLACK IS BEST FOR ME

Once a crow named Mily lived on a tree. One day Mily said to her friend Leelu, "I don't like my black feathers. What can I do to change their colour?"

"Oh, no! Our black feathers look so beautiful. Why do you want to change them?" Leelu replied. But Mily would not listen to her friend.

Finally, she thought of a plan to change her colour. She would cover her body with green leaves! Then, nobody would see her black feathers.

Soon Mily covered her body with leaves. "Now I look so nice," She said to her self.

Just then a group of ants came that way "Wow! Here's a nice leaf now let us live in it," they said.

Soon after a group of wasps also came along. They said, "let us make this leaf-house our home."

Mily was frightened when she heard this, she shook off all the leaves on her body. "Black is best for me!" she said.

INCARNATION

No true fact but a belief
It is creating a kind of new leaf
It is not my intuition
But people do talk of incarnation

Wry and scary information
Is there truly incarnation
Some say it a part of legend and history
It is difficult to solve the mystery

It's a question of a question
An enigmatic question
It has found its way in Hollywood
Cutting boundaries it has spread in Bollywood

Incarnation is a fact
Can parrots and cards tell the fact?
Some use it to earn a living
Bluff the gullible by all false reasons

In simple words it is rebirth
Like getting a new shirt
But life becomes miserable
Between present and past life

O gods! save me from this
Let me enjoy present life bliss
Let bygone be bygone
Let my present life gracefully be home

GLOBAL WARMING

Global Warming isn't hard to explain,
 It leaves Mother Earth crying with tremendous pain,
 It hurts our planet in every possible way.
 The changes could leave us all in SORROW and DISMAY.
 We need to stop it now so the TEMPERATURE doesn't rise,
 Otherwise people, plants and animals would be in DEMISE.
 Changes in temperature due to the depleting OZONE LAYER,
 Will leave people in PAIN and DESPAIR.
 Green plants would lose their FLAME,
 OUR GLACIERS would DRAIN,
 Our Government is trying to HELP and REACT,
 But You and I need to Think, Plan and Act.
 Let's start playing it SMART,
 And do your Part.

Luck Favours Those Who Help Themselves

A flood was threatening a small town and everyone was leaving for safe ground except for one man who said, "God will save me. I have faith." As the water level rose, a jeep came to rescue him, the man refused, saying, "God will save me. I have faith." As the water level rose further, he went up to the second storey of his house, and a boat came to help him. Again he refused to go, saying, "God will save me. I have faith." The water kept rising and the man climbed on to the roof. A helicopter came to rescue him, but he said, "God will save me. I have faith." Well, finally he drowned.

When he reached his Maker he angrily questioned, "I had complete faith in you. Why did you ignore my prayers and let me drown?" The Lord replied, "Who do you think sent you the jeep, the boat and the helicopter?"

Child Labour

The poor children don't have a house to live in, no food to eat and instead of books they are given working tools. I have food; I have books and a happy home. I tend to forget that while I have time to play, they work nonstop.

When I get ready to go to school, they still work for an extra hour to earn a rupee or two. I am being educated in a good school but they don't even know how to

spell their own names. I enjoy playing games with my friends or going for parties, but these poor children don't have any childhood fun. I look forward to holidays, planning trips, but what they see is just a bleak future.

When I look at the children working on the streets, my heart breaks. The image remains in my mind and an inner voice arouses a feeling of love and sympathy. My mind searches for a solution. A solution that may eradicate poverty and child labour, and would create a better way of living for these homeless, innocent children; making them realize the importance of education; and making them aware of the fact that all are equal. To treat our servants with courtesy is a sign of discrimination.

I have a dream. A dream that one day I will live in a world where child labour will not exist.

Do it Now

If you have hard work to do,

Do it now.

Today the sky is clear and blue,

Tomorrow clouds may come and block the view.

Yesterday is not for you,

Do it now.

If you have some kind words to say,

Say it now.

Tomorrow may not come your way,

Loved ones will not always stay,

Say it now.

If you have a smile to share,

Show it now.

Make hearts happy, roses grow,

Let the friends around you know,

The love you have before they go,

Show it now.

YOU CAN BE NEEDY, NOT GREEDY !

Nature has been kind to man by bestowing love on him in the form of Natural Resources. In the initial stages of evolution of human beings, man identified the natural gifts and started using them for various purposes. Though all the resources had been present on the earth even during the prehistoric times, man had neither the tools nor the technology to use them. Slowly, man started using and then over using them. But as Mahatma Gandhi said **NATURE HAS ENOUGH FOR EVERYONE'S NEED BUT NOT ENOUGH FOR ONE MAN'S GREED!** It is a pity to see that culture of consumerism has led man to exploit nature to his selfish needs. As nature cannot fulfil our greed, it has already shown signs of depletion. I think that the twentieth century will be remembered for knowledge

explosion, scientific and industrial revolution, catastrophic wars and global human rush for improving the quality of living. Due to the excessive human intervention in our environment, "survival has become survival issue". Thus, environmental education has become (a survival issue) the need of the hour. The one and only reason for the environment deterioration is a missing link which ought to exist between knowledge and action. It is high time that we start acting. Let's be one and start taking small steps to a cleaner and greener surrounding.

DUSTBIN

A dustbin stands in the corner,
It does not claim any respect or honour.
It accepts everything and says nothing,
People shout at the top of their voice.
But the dustbin does not make any noise
It is the necessity of every house,
It has to be kept away from the mouse.
It needs for humility
And is never proud of its ability
It reduces soil pollution.
For many problems, it is a solution
It gives nothing but says "USE ME".

moon

Look at the moon,
We cannot see it at noon.
It shines so bright,
but only at night.
It has stars all around,
which we cannot count.
It has a lovely face,
but so far away in the space,
we see it in different size.
Between sunset and sunrise
I want to go there,
But don't know to start from where,
I go there only in my dream,
travelling on its beam.

What equals 100 per cent ?

What does it mean to give MORE than 100 per cent ?

Ever wonder about those people who say they are giving more than 100 percent.

We have all been in situations where someone wants you to GIVE OVER 100 percent.

How about ACHIEVING 101 percent in life ?

Here's a little mathematical formula that might help answer these questions.

If A B C D E F G H I J K L M N O P Q R S T U V W X Y Z are represented as : 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26

If H-A-R-D-W-O-R-K

$$8+1+18+4+23+15+18+11 = 98 \text{ percent}$$

And K-N-O-W-L-E-D-G-E

$$11+14+15+23+12+5+4+7+5 = 96 \text{ percent}$$

But A-T-T-I-T-U-D-E

$$1+20+20+9+20+21+4+5 = 100 \text{ percent}$$

Then look how far the LOVE OF GOD will take you.

L-O-V-E -O-F -G-O-D

$$12+15+22+5+15+6+7+15+4 = 101 \text{ percent}$$

Therefore, one can conclude with mathematical certainty that: While Hard Work and Knowledge will get you close, Attitude will get you there, it's the LOVE OF GOD that will put you on the top.

A smile is a curved line,
On a face which makes,
Every thing straight.

Love is like a rose,
When you hold it tight it hurts you,
But when you smell it,
It makes you feel,
The happiness you have never felt before.

Friendship is a silent gift of naturemore old,
more strong, more deep, more clear, more close,
more warm and less words but more understanding.

A true friend is not like rain that
pours and goes away
But like the air,
Not always visible but always in touch.

MY PEERS

Last night, when I went to bed,
 I saw a dream in my head.
 I was with my peers,
 We pushed hand on their bike gears.
 They were very trendy,
 But not very friendly.
 Some of them were very studious,
 Not like Hermione, the genius.
 Some were very lethargic,
 Unlike them up we always needed some garlic.
 Some of them were naughty and cunning,
 We always do buttering.
 They always need someone's favour,
 Not how that it's them who are so clever.
 Some were so shy,
 In mingled every little try.
 Some of them were really domineering,
 We knew only how to keep quarrelling.
 Lots of today,
 We see pranks everyday.

THE EARTH

There are many planets in the universe
 But the most beautiful is our earth.
 It is the only planet where life exists
 And in which millions of people fit.
 It is a mystery
 And has it's own history.
 Somewhere it is hot,
 And somewhere it is cold;
 Somewhere we see mountains,
 And somewhere plains.
 It gives us many things
 But has its own rules
 If someone breaks it, it punishes those fools.
 It is a package of greenery
 And every location of it is like a beautiful scenery.
 We must take care of it
 And plant more and more trees
 To make our earth healthy, wealthy and green.

Yashaswini Trivedi

Our environment consists of
 Birds, animals and trees,
 But the foolish man is spoiling it
 With pollution mercilessly.

The rivers give us a beautiful sight,
 But now they are as dark as nights.
 The birds fly high to give us pleasure,
 But now poachers are robbing our treasure.

The animals are being hunted mercilessly
 But we are sitting just helplessly.
 The trees are our real wealth
 As they are beneficial for our health.

Trees are now being cut one by one
 It's like someone robbing our life's sun
 Please don't act as if you are strangers,
 Or your own life would be in danger.

See Environment.

ENVIRONMENT

The Corrosive Rain !

Imagine going outside on a wet day, but instead of rain falling, you walk through a shower of vinegar. Something similar to that happens to many people in the world today, the rain that falls on them is acidic as vinegar. Acid rain is a kind of air pollution. When coal, oil or petrol is burned it releases harmful gases such as sulphur dioxide and nitrogen dioxide into the air. These gases dissolve in the moisture that is always present in the air and form weak acids that may be carried long distances. Eventually they return to the ground as acid rain, hail, snow, sleet or even fog. Acid rain is not new. The problem

began with the Industrial Revolution and has been growing ever since. In the past, city air was so sooty from the thousands of coal fires that turned the buildings black. When acid rain gets into lakes and streams it kills aquatic life. Almost half of the trees in forests have been damaged by acid rain. Even the water we drink is affected by it. Some of the world's greatest cathedrals and most famous monuments show signs of damage caused by acid rain. The best example to prove this is the TAJ MAHAL. Most of the acid gases that produce acid rain problems come from power stations, refineries and factories. Power stations and factory chimneys can be fitted with devices like electrostatic precipitators

that remove the sulphur dioxide gas, while cars can be fitted with catalytic converters, which reduce the nitrogen oxide in exhaust fumes. Unfortunately the devices to reduce acid gases are expensive and not all governments, companies and individuals are willing to spend the extra money on them. Even if acid rain could be stopped today, it would take at least ten years for its effects to begin to disappear. So wake up before it's toooooo..... late, otherwise we will have to live in a world which has no colour except the colours BLACK!!!!

Some Life Giving Thoughts

- Sight helps us to realize the existence of GOD, but only the heart can help us to find Him.
- The greatest achievement of all, is conquest of self.
- We are not the owners of anything that has been created by Nature, for it is the property of the creator. We, therefore have no right to destroy, change or tamper with anything that has been created by Him.
- One thing unique about wisdom is, it cannot be inherited but must be acquired.
- Each unfortunate event in life should be considered a lesson, for the development of our minds.

TO MOTHER EARTH WITH LOVE..

"There is no door to knowledge, than the door nature opens for us and there is no other truth than the truth we discover in nature....."

It was one very peculiar night,
A dream flashed across my sight.
A dream which in the beginning,
Was full of happiness and fun.
But in the end....
There was only sadness and scorching sun.
I stopped, looked and saw,
Affable nature in rags.
Whose affluence was deteriorating by ,
Pollution and plastic bags.
There was a complaining world ,
Of plants and trees.
Who had lived once a life ,
Of calm and peace,
People were cutting trees, setting up industries,
Just for their own foolish need,
Just for their own greed.
Environment was crying.... "SAVE ME ,
DON'T TREAT ME SUCH"
But no one was thinking.
About the aftermath.
Something happened one day....
In a very ghastly way.
That day, the earth went boom,
Sending everyone to DOOM....

Well that was just a dream but we should definitely do something and put our best foot forward before it transforms into a heinous reality... There surely is a need for self realization and mass awakening on a large scale for the sooner we correct our mistakes the better...as we can still see the eastern sun bringing hope for a day with a better environment.

I would like to conclude by saying,
"Let us realize what time has to say,
Protect our planet-THE EARTH, OUR MOTHER.
For it has fulfilled our needs whatsoever.....
It will destroy us if we go against it.
Time is telling us to make a choice,
Let's- "CHOOSE IT"!!!

So everybody,
"Let us take a vow,
That we will protect our mother earth as long as we live....."

Nine things God won't ask.....

- ... God won't ask what kind of car you drove;
He'll ask how many people you drove who didn't have transportation
- ... God won't ask the square footage of your house,
He'll ask how many people you welcomed into your home
- ... God won't ask about the clothes you had in your wardrobe,
He'll ask how many you helped to clothe
- ... God won't ask what your highest salary was;
He'll ask if you compromised your character to obtain it
- ... God won't ask what your job title was,
He'll ask if you performed your job to the best of your ability.
- ... God won't ask how many friends you had,
He'll ask to how many people you were a friend to.
- ... God won't ask in what neighbour-hood you lived,
He'll ask how you treated your neighbours.
- ... God won't ask about the colour of your skin,
He'll ask about the content of your character.
- ... God won't ask why it took you so long to seek salvation,
He'll lovingly take you to his mansion, and not to the gates of hell.

THE CRYING CRY

For the past hundred years,
I have lived in fear,
The ones whom I appreciated as mine,
They only turned me from sweet to saline.

So much I have warned and roar,
With Tsunamis, Hurricanes and more.
Even then they are taking me as waste and bore,
And continuously dividing me from one to four.

I feel depressed and helpless about their future,
They do not know the fury of nature.
But, they seem to lend their ears now,
May be curious to know what would
Happen next and how???

Their greed is degrading them and me,
Causing cancers in blood to arthritis in knee.
It's high time for them to decide,
Would they respect me or see my other side.

After trying so much to ignore,
Feeling weaker and burdened a lot more.
I feel it's going to be worse,
Yes, they will, they will face my curse.

God help them that this global warming,
Would make their minds globally warm.
To act cautiously and prevent their greedy growing arm.
No saviour would come from Ayodhya or Bethlehem.

If there will be Hell on earth, it would be because of them,
And just because of them...

*Earth is the third planet from the sun,
And being on it, is loads of fun.
The earth is our motherland,
There is love even in sands,
It gives us everything we want,
And every wish of ours is granted.
It gives us life, it gives us trees,
But we pollute its rivers and seas,
We endanger the atmosphere and wildlife,
And in turn endanger our own life,
Who is responsible for this degradation?*

By making environment green,
So that the air we breathe is fresh and clean!*

SCHOOL RULES

- Dress neatly and come on time, this is the first rule you must sign.
- Visit the teachers you meet, and complete your home work every week.
- Don't throw paper on the ground, give the teachers whatever is found.
- Pay your teachers full respect and do everything as said.
- But just remember one thing, don't argue with your teachers in anything.

प्रिय पाठकगण,

विद्यालय के स्वर्णजयन्ती वर्ष पर विद्यालय की ओर से आप सबको हार्दिक शुभकामनाएँ। इस स्वर्ण जयन्ती के उपलक्ष्य में विद्यालय के प्रतिभाशाली छात्रों ने पत्रिका के हिन्दी-विभाग में कविता, लेख कहानी के माध्यम से अपनी छिपी हुई प्रतिभा का प्रदर्शन किया है, आशा है ये रचनाएँ ज्ञानवर्द्धक होने के साथ-साथ आपका मनोरंजन भी करेंगी।

विद्यार्थी तो उस अर्द्धविकसित कली के समान हैं जिन्हें समय-समय पर लेखन के लिये प्रोत्साहित कर पुष्प के समान खिलने का अवसर प्रदान किया जाना चाहिए।

विद्यार्थियों को लेखन के इस उत्कृष्ट कार्य की ओर प्रेरित करने के लिये हिन्दी विभाग की समस्त शिक्षिकाओं के योगदान के लिए मैं उन्हें साधूवाद देना चाहूँगी।

बच्चों की पुकार

आजारी तुमने पुकार ।
 बच्चे को दे दो प्यार ॥
 हम तेरे बालक अनजान ।
 हमको नहीं तुम को ज्ञान ॥
 तुमको ज्ञाना प्यार,
 न देखे है कहे दुःखार ।
 उन हैं छोटे-छोटे बालक,
 हम बच्चे का तु हो पावर ।
 छोटे दे हमको सीख,
 बड़े-बड़े मारे पीख ।
 कभी पक्ष हमको दिखाओ,
 ये निष्ठा, विद्वान बनाओ ।
 क्या मन में न जारें,
 बचान हम सब मन जारें ।

रोजरी स्कूल - मेरी नजर में

ज्ञान ही समृद्धि तथा विकास का आधार है । आज मेरे स्कूल का उद्देश्य बच्चों को ज्ञान की रांग में नहला मुलाकर विश्व की रंजनीय पर एक सफल कलाकार को रूप में प्रस्तुत करना है । इसका श्रेय हमारे स्कूल के कर्मक, मेहनती, जिज्ञासु तथा विशाल सहयोगी अध्यापकों और छात्राचार्य को जाता है । सभी राज्यस्तरीय प्रतियोगिताओं में जीतते हैं, वे छात्राचार्य विचारों की सीढ़ी पर चढ़कर आकाश की चोंचों को छूना चाहते हैं । उनके इस प्रयत्न में वे गिर भी सकते हैं । यदि उन्हें अपना सही मार्गदर्शक न मिले । लेकिन स्कूल उन्हें स्थिर वातावरण प्रदान कर जलज प्रथि में सहजक बनाता है । मानवीय मूल्यों के बिना जीवन अकारणीय दुमारा के समान है । जो कभी भी बह सकती है । इसी सचवाई को ज्ञान में रखकर प्रत्येक बच्चे के नैतिक विकास में योगदान देना ही रोजरी स्कूल का लक्ष्य है । अनुशासनात्मक जीवन एक औषधी के समान है । इसलिए हमारे स्कूल में बच्चों के अनुशासित जीवन बिताने पर नजर रखी जाती है ।

शैक्षिक संसार की ज्वलन्ता समस्या है वातावरण को सुरक्षित रखना, ताकि भविष्य अंधकारमय न हो । इसके लिए बच्चों के वातावरण को सुरक्षित रखने हेतु निम्नांकित कार्य में लीन किया जाता है । ताकि भविष्य की भयावह कल्पना पर मुग्ध न बने । 'ग्रीन' जैसी संस्था के द्वारा हमारा स्कूल बच्चों को कमजोर वर्ग के लोगों से जोड़ने की कोशिश करे । शैक्षिक रूप से पिछड़े बच्चों की सहायता के लिए बच्चों को जीवन की कठोर वास्तविकताओं से परिचित करने के लिए उन्हें समानता के कमजोर वर्ग के बच्चों के बीच ले लाया जाता है । आधुनिकता की पहचान 'कंप्यूटर' देश के द्वारा प्रतिष्ठित की सीढ़ में अग्रणीय रहा है मेरा स्कूल ! आज मैं नहीं छात्र की छात्रा हूँ, मुझे आज्ञा है इसे जिन्दगी के निष्ठावक वर्षों में मेरा स्कूल मेरा पक्ष प्रदर्शक बनाकर मुझे देश तथा समाज के कल्याण हेतु कार्य करने लिए प्रेरित करता रहेगा ।

वक्त जो था.....

जोसेफ हॉल ने एक बड़े भाई की बात कही है—“प्रतिदिन एक लघु जीवन है और हमारा सारा जीवन मात्र एक दिन की पुनरावृत्ति है। अतः प्रतिदिन इस तरह जीओ मानो यह

अंतिम ही है।” फ्रेडक्लीन भी कुछ इसी तरह की बात कहते हैं—“Do not Squander time for that is the stuff life is made of.” अर्थात् समय को बर्बाद मत करो क्योंकि जीवन इसी से बनता है। समय का हमसे सुनार बहुमूल्य आकलन नहीं किया जा सकता और न ही उसकी उपयोगिता की हमसे अच्छी क्वालिटी हो सकती है। हमारा प्रत्येक क्षण एक दिन है और प्रत्येक दिन अपने आप में जीवन का एक खण्ड। आरम्भ, जिसने एक क्षण भी व्यर्थ में गंवा दिया अथवा एक क्षण को भी फूलझीन सम्पन्न, हमने जीवन के एक खण्ड को व्यर्थ कर डाला, मानो बहुत बड़ी चुनौती को ही गंवा डाला। जो व्यक्ति अपने प्रत्येक क्षण का सम्मान करता है वही जीवन्त जीवन जीता है।

औरंगजेब ने अपनी खसीघल में लिखा था—समय का प्रत्येक पल बहुमूल्य है। जो व्यक्ति एक पल भी गलतल में गंवा देता है, वह सारी उल्ल पछताता है। “गुजर गये जो दिन वे इराजिज नहीं आयेगे, तुम्हारे द्वारा जो कने निश्चय वे कभी नहीं मिट पायेगे” ये भी किसी विद्वान की ही सोच है। कभी-कभी तो एक पल की गलतल ही उसके सारे जीवन के लिए अधिप्राप बन बैठती है और ऐसा निश्चय होठ जाती है कि मिटाए नहीं मिटता। अतः औरंगजेब कह बैठता कि यदि मैं एक पल की गलतल न करता तो मेरा शत्रु शिवाजी यों सदा ही घुटकार नहीं जा सकता का और मुगल साम्राज्य के लिए यों विर-दर्द नहीं बन सकता था। इसीलिए तो लोग कहते हैं—“वक्त है सागर की लहरें जो कभी किसी की प्रतीक्षा नहीं करती।”

Time and tide waits for none. अतएव, समय हिने का इंतज़ार नहीं करता। यदि इतिहास की पाने से हम पर उसी ने शासन किया है जिसने अच्छे-बुरे समय के पहचाना, जिसने समय को अपने अनुकूल बचाया था जो बुरे समय पर चुप होकर इसलिए बैठ गया कि उसे समय के आने पर ही कुछ बोलुंगा। जो समय को मा चलता है, समय बामाव से उसके साथ चलता है। राजकी विजयारव घाणवद ने सफलता को धार बाउ करता ये—निर्भर यह देखते रहना कि समय कैसा है, वह मेरे और मे गतिविधियों के कितना अनुकूल अथवा प्रतिकूल है, में कौन-कौन शत्रु अथवा मित्र हैं तथा मुझमें कितनी लीक अथवा दुर्बलता है। उपर्युक्त सभी बातों से निश्चय है समय का सर्वाधिक महत्व है। यह तो एक ऐसा मुनि है जो निरंतर घूमता रहता है और प्रत्येक व्यक्ति के हार न उसे कुछ न कुछ देने के लिए आवाज लगाता है। का लोग होते हैं जो पीर और प्रभाव के कारण उसकी आवा सुनते ही नहीं। कुछ सुनकर भी खरबद बरतल लेते हैं, कुछ तत्क्षण उठकर द्वार खोल देते हैं और कुछ समीक्षा में द्वार खोले आंखे पिछाई बैठे रहते हैं और के ही चरण कादुकरओं की ध्वनि सुनते हैं उठकर उसका स्वागत करते हैं। यह तर्क वीर्य ही होता है जैसा कि बाईबल के एक दृष्टान्त में राज कुथारियों के साथ हुआ था। जो समझदार की ये अपना अपना सीपक जताए दूने की अगवाजी में तगर की परन्तु जो नासमझ की ये दूने के आने की आहट की प्रतीक्षा करती रही कि जब दूत आया तब सीपक जलाऐये और तब तक दूल्हा आ गया प्रतिकारत कुथारियां अपना सीपक जला करती, दूल्हा हर आया और त्वरित गति से निकल गया। समय ऐसे लोने की झोली में सुख-समृद्धि और सफलता-चरितार्थता के घरबान डाल जाता है जिन्होंने समय के साथ जाकल मीठ लिया है और प्रभाव वल उसका स्वागत नहीं कर पाते उसे अधिप्राप से जाता है। चन्द क्षणों ने इतिहास में बड़े-बड़े

बलकार उत्पन्न किए और साधनको के उद्यान-पान से फलपूर्ण भूमिका अदा करे हैं। सामूहिक के युद्ध में यदि साक्षात्कोट कुछ और क्षणों तक हाथी पर बना रहता और लोको से उतरकर घोड़े पर न बैठता तो मुगल साम्राज्य का विनाश कुछ और ही हुआ होता।

जिनकी जितनी बढ़ती है उतनी ही घटती है,

जिनकी अपने आप में ही कटती है,

अर्थात् घड़ी की टिक-टिक की छवि के साथ गिरते चूड़ने वाली सुर्खियाँ तुम्हें पुकार-पुकार कर कहती हैं कि समय निरंतर बीड़ रहा है, यह किसी के रोके नहीं सकता, किसी के धावे नहीं धगता। उठो और कुछ कर लो। समय बीतने पर तुम कुछ नहीं कर पाओगे। "Life is short, art is long and time is fleeting." अर्थात् जीवन क्षणिक है, कार्य बहुत है और समय धागा जा रहा है। "Life is short-so don't dream it, but live it with time." संसार में जिस-जिस व्यक्ति ने कुछ भी प्राप्त किया है, बिना समय का सम्मान किए वह नहीं था सक्ता और जिसने असफलताएं पाई हैं वह भी समय का सम्मान न करके। बिल्ली पति पृथ्वी राज चौहान की करुण असफलताओं, का भी यही कारण था कि सर्वोच्चता के साथ भोग विलास में फंसे रहकर उसने शत्रु पक्ष की शक्ति को तोलने-पारखने की चेष्टा नहीं की और देखते-देखते एक दिन शत्रु बढ़ गया। शेरशाह सूरी द्वारा हुमायूँ की पराजय का कारण भी यही था कि जिस समय को हुमायूँ ने आराम तलबी में बिता दिया सूरी ने उसी का सर्वाधिक सुरा उपयोग किया।

Therefore, "The idle does not waste time, wastes himself." यहां शैक्सपियर की कही बातें एकदम ठीक लगती हैं—"I wasted time and now doth time waste me." अर्थात् मैंने समय को नष्ट किया और अब समय मुझे नष्ट कर रहा है।

अतएव याद रखो कि समय का प्रत्येक क्षण भविष्य का निर्धारक है और अपनी इच्छा करने वालों को समय

कभी क्षमा नहीं करता। इस संबंध में मुझे जानी के महान वास्तविक कान्ट का स्मरण हो आया है। कान्ट को समय से इतना अधिक प्रेम था कि उसके दैनिक जीवन का प्रत्येक क्षण पहले से ही निर्धारित रहता था। लोग उन्हें देखकर अपनी पड़िया मिलाया करते थे। और पाँच मिनट मात्र देर से पहुँचने वाले अपने पित्र से भी वह सर्वत्र के लिए सम्मान विच्छेद कर लेते थे। भारत के प्रथम प्रधानमंत्री पंडित जवाहर लाल नेहरू समय के बड़े पाबंद थे और कभी एक क्षण का समय भी प्रवास अथवा आलस्य में नहीं गँवाते थे। इसलिए अपनी सोच हमेशा सकारात्मक रखनी चाहिए न कि आलसी के सासन जो हमेशा ईश्वर से यही प्रार्थना करता है—Come day, go day and God send Sunday.

कुछ लोग अपना समय व्यर्थ की बातों में गंजावा करते हैं, तो कुछ आसोय-प्रमोद में, कुछ लोंग भोग-विलास और खान-पान में तो कुछ खेल-कूद और अन्य व्यस्तियों में, कुछ दूसरों की निंदा-स्मृति में तो कुछ लड़ने-झगड़ने में, तो कुछ रात-दिन सोने में। ऐसे लोग निश्चय ही अधमरे हैं, उनका मनुष्य जीवन लेना व्यर्थ साबित होता है। वे न तो अपना ही कुछ भला कर सकते हैं और न देश, समाज और जाति का ही। याद रखिए समय सबसे बड़ा सक्ति उगाह लेता है और जिस पर प्रसन्न हो जाता है उसे सिकन्दर और नेपोलियन बना देता है। अतः यदि हम चाहते हैं कि हम युग पर शासन करें, यदि हम चाहते हैं कि सफलता, सम्पन्नता और सभ्यता हमारे चरणों में तो हमें प्रत्येक क्षण को बहुमूल्य समझकर उसका समुचित उपयोग करना चाहिए। इसलिए याद रखो कहीं ऐसा न हो कि :

वक्त जो का काय का उसको उड़ाया भूल में,
वक्त जो का काय का उसको गंजाया भूल में,
वक्त तो का जानने का और तु सोता रहा,
वक्त को बर्बाद का जिनकी धर रोता रहा...

आज जब विद्यालय में स्थिति किन्तु उस स्वर्णिम युग के विषय में सोचती हूँ तो हृदय ईश्वर के प्रति नतमस्तक हो धन्यवाद से भर जाता है, लगता है जैसे समय पंख लगाकर किररी पत्ती की भाँति धूमलार हो गया।

सन् 1970 में जब मात्र इक्कीस वर्ष की थी तो अपने पिताजी के साथ विद्यालय के विशालकाय प्रांगण में जो करते ही विशाल पाग के कुशों को देख हूँ अतीत हुआ मानो प्रकृति मुक्त हस्त से दोनों बाँहें फैला स्वागत करने को आतुर है।

1970 के दशक में वसुंधा कुटुम्बकम् की उन्नति को चरितार्थ कर रोज़री विद्यालय पूर्णरूपेण एक परिवार के रूप में था, उस समय प्रत्येक बच्चा में तीस-तीस विद्यार्थियों से अधिक न होने के कारण गुरु-शिष्य का असीमप्रायः सम्बन्ध अधिक था। विद्यालय में मनाए गए अध्यापक-दिवस, बाल-दिवस की मानस-पटल पर आज भी उज्ज्वल छाप जंकिता है।

विद्यार्थी भी बाल-दिवस की बेसब्री से प्रतीक्षा किया करते थे क्योंकि उन्हें अपने प्रिय अध्यापकगण की सहस्रों प्रतिभा के साक्षर दर्शन करने का शौभाग्य जो प्राप्त होता था, अध्यापकों ने भी अपने प्रिय शिष्यों को मिला नहीं दिया। कभी कभी कलवाली कभी गिरा तो कभी लोक-गुह्य देख विद्यार्थी इस बात का अनुमान लगाते थे कि अध्यापिकाएँ विद्यार्थियों का मनोरंजन करने में पूर्णरूपेण समर्थ हैं।

बाल-दिवस के अवसर पर विशेष पहिचान में सुसज्जित मीथलिंग करती अध्यापिकाओं को देख बला कीन हो सकता था कि ये गरीब-परिचित शिक्षिकाएँ हैं जो अपने कठोर अनुशासन और असीम ज्ञान बग़्गार से विद्यार्थी के जीवन को सज्जने-सँवारने में महत्वपूर्ण भूमिका निभाती हैं।

नहीं भूलता वह दिन जब प्रातः प्रार्थना समा से पूर्व सूचना मिली कि दूसरी कक्षा के छात्र को विद्यालय की हल में दीई और छोटे तालाब में नन्हीं-नन्हीं मछलियाँ पकड़ते समय सर्प ने जकड़ लिया है। बालक जितना स्वयं उसकी निरक्षता से मुक्ताने का प्रयास करता, टाँग में लिपटा सर्प उतनी ही पकड़ मजबूत कर लेता। विद्यालय के छात्र व अध्यापक गण निरसहाय हो इस दुर्घटना को देख रहे थे कि सुरन्त श्रीमती जीन (अध्यापिका) ने किसी की सी तेज़ी से अपनी साड़ी के पल्लु से उस सर्प के मुँह को बड़ी दक्षता के साथ दबाकर अलग कर दिया सुरन्त बालक को अस्पताल पहुँचाया गया जिसे समय पर प्राथमिक चिकित्सा दे पूर्ण स्वस्थ किया गया।

घन्य है वह वीरगमना जिसने अपने प्राणों की किन्ता किन्तु उस बालक को जीवन दान दिया।

समय-समय पर रोज़री विद्यालय के न केवल शिक्षक वर्ग वरन् विद्यार्थी एवं कर्मचारियों ने भी अपने अहम ताल एवं कर्तव्यनिष्ठा का परिचय दिया है। विद्यालय में बाढ़ का पानी घुसने पर सबने एकजुट होकर पकड़ा सफल किया।

आज भी हमारा रोज़री परिवार अपनी पूरी प्रतिबद्धता के साथ निरन्तर वृद्धि की ओर अग्रसर है। समय के नींग को देखते हुए, कक्षाओं को आधुनिक सुविधाओं से युक्त बनाया जा रहा है। अब जबकि मैं संघ-निर्देश की ज्ज्मिण चलन में हूँ मुझे गर्व है कि मैं एक लम्बे समय तक इस रोज़री परिवार की सदस्या रही और इस निरन्तर विकास की साक्षी भी।

घर

जहाँ अपना होता है,
जहाँ रहना होता है,
हो जहाँ मुँह-बुँह होता है,
वो अनेखा घर होता है ।

जहाँ-बीचों को अंदर रहते सब,
सब पक्ष नहीं चीत जाता है कब,
जिसे सुंदर सजाना होता है,
वो अनेखा घर होता है ।

जहाँ सब अपना काम करते हैं,
जिन्-बुलकर साथ हमेशा रहते हैं,
जहाँ प्यास का चालाकरण होता है,
वो अनेखा घर होता है ।

जहाँ पशुपक्ष की हरकतों से घर बिखरता जा रहा है,
तब का चालाकरण चिपकता जा रहा है,
जहाँ ऐसा न हो कि खड़े-कहें पड़ते ऐसा होता था,
वो अनेखा घर, अनेखा घर होता था ।

“कर्म ही पूजा है”

प्रेरक-प्रसंग

भाग्य जीवन ईश्वर की अनुपम कृति है । वह अपने सेंट कर्मों से जीवन का आनन्द ले सकता है । कर्मजाल जालि की जीवन की उंचाईदृष्टि को स्पष्ट करता है । अतः, अकर्मण्य पुण्य जीवन में हमेशा अवलंब करते हैं । इसलिए कर्मों की पूर्ण समझना के साथ अपने काम की करी तुम

उसमें आनन्द लेना चाहिए । एक बार कुछ मजदूर मन्दिर के चारों पक्षों को देखने का कार्य कर रहे थे । उनमें से कुछ मजदूर प्रसन्न थे और कुछ निराश । एक मजदूर ने तो पक्षों को देखते समय जलु बह रहे थे तभी रात वाली मजदूर ने उससे पूछा कि तुम मन्दिर को काम के लिये पक्षों को देख रहे हो लेकिन दुखी दिखते दे रहे हो । मजदूर ने कहा कि किम्मत अच्छी नहीं की इसलिए पक्षों को देखने का काम मिला है । दूसरे लोग मजदूरों से गुम रहे हैं । मीठ-मली कर रहे हैं । वह काम करते हुए ईश्वर की दीन ले रहा था ।

दूसरे मजदूर से मजदूर ने पूछा कि तुम काम करते हुए जलु दिखते दे रहे हो तुम्हें क्या नहीं हो रहा ? तब उस मजदूर ने उत्तर दिया कि मैं बुलका पक्षों को देख रहा हूँ, क्योंकि पक्षों को देखने की जो मजदूरों मुझे मिलेगी वह मेरी ईमानदारी और परिश्रम की कमाई होगी । वह कमाई मैं अपने बच्चों को खिलाऊँगा । इसलिए मुझे संतोष और क्षान्ति है ।

तभी मजदूर की दृष्टि एक ऐसे मजदूर पर गई जो पक्षों को देखते हुए सीत ना रहा था । मजदूर ने पूछा इसकी तुम में पक्षों को देखते हुए तुम्हारा जीवन जीने-पाने से रहा है, और तुम तो दुस्तुन रहे हो । उस मजदूर ने उत्तर दिया कि मैं बहुत खुश हूँ कि भगवान की अक्षर कृपा से मुझे यह पवित्र कार्य मिला है । भगवान के सुन्दर मन्दिर निर्माण में मेरा परिश्रम और पसीना लग रहा है । मुझे काम करते हुए असह्य जा रहा है ।

मजदूर ने तीनों को देखकर कहा कि तीनों ही कर्म हैं, परन्तु सीत मैं अक्षर है । एक ने कार्य की सुनिश्चित समझ, दूसरे ने कार्य और तीसरे ने पूरा मनकर आनन्द लिया ।

पक्षों बचते । राष्ट्र का सौभाग्य आप पर निर्भर है । पूर्ण समझना के साथ आप अपने कर्मों का चलन करें । सफलता तुम्हारे करण सुनिश्चि ।

अतः समय के एक क्षण को भी बर्बाद न करें तथा स्वयं को परिस्थितियों का नहीं, अतः परिस्थितियों को अपना घन एवं परिश्रमशील व्यक्ति के लिए कुछ भी असंभव नहीं। दृढ़ संकल्प तथा परिश्रम के बल पर ही मनुष्य अपने लक्ष्य को प्राप्त करता है।

प्रेम की मूरत

मनुष्य के एक दुःख यह
मन पर आज भी है खी,
एक रोहस खबर आता था,
जब भी जीवन के परचातु मेरी जौखे खुली ।
जिस समय यह जानती भी न थी,
कि किस विद्विधा का नाम है "प्रेम",
तब उस व्यक्ति को देखकर
ज जाने कैसे मन में उमड़ जाता था रनेत ।

सोलह वर्ष से उसको
सह्य सेवा करते देखा मैंने,
मेरी हर प्रयत्न को पूरा करने के लिए
उन्हें अपनी दायजारी को त्यागते देखा है मैंने ।
कठिनाइयों से लहरी परिस्थितियों से जुझती,
तब भी मुरकसाती रहती,
केवल इसलिए कि वे सफलता के
सिखर पर मुझे देखना है चाहती ।
पूरे संसार में एक ने ही है जो अपना
सौजन्य मुझे खिलाकर भी क्षुभ हो जाए,
साथ ही कारण है कि मैं
ईश्वर की जीवित मूर्त कहलाता ।

समय का सदुपयोग

समय जहाँ समय का पहिया निर्धन गति से घूर्णित होता है ।

जो समय बड़ा बलवान है । समय राज को रोक और रोक को राज बना सकता है । इसलिए ही समय
मनुष्य को साधनता चाहिए और समय रहते उसका सदुपयोग करना चाहिए । अधिक धन को अधिक
समय देना चाहिए जो धन को चल पर चलने से बचना चाहिए । जो मनुष्य समय को धन ही मान
कर उसे समय बच करके मिट्टी में फिग देता है । जो मनुष्य समय का मूल्य समझते हैं वे धन ही
नहीं बचाते वे अपने जीवन काल में कई कमिशन स्थिति कर जाते हैं । मृत्यु के परचातु भी उतर ले जाते हैं । "जब पलक
मन का पहिया धुल पाई खेत" । अर्थात् काल कुछ समय किसी भी मनुष्य पर चला नहीं आ सकता । किसी ने काल ही कहा है
जिस मनुष्य समय पर आकाश ही उसकी सवारी करते हैं, धुंधी पर समय आकाश होता है । इसका कारण है बुद्धिमान लोगे का
काल को सदा समय सही छोड़े पर नियंत्रण होता है । इससे किसी पढ़ने पर वे सफल हो उसका कल दुरु लेते हैं क्योंकि उनकी
सही होती है । वे कभी असफल नहीं होते । कल कहलुर मरुकी, जो भीमराव अम्बेडकर, महात्मा गांधी, जॉर्ज वॉशिंगटन जैसे
वे समय हासिल, महामानव अलग-अलग क्योंकि उन्होंने समय को महल को समझकर उसका सदुपयोग किया ।

बन्दे मातरम्

भारत की भरती पर देखी कौसी विपदा आन पड़ी है,
बन्दे मातरम् हागे की क्या समझें होइ मची हुई है ।
इन नेताओं को देखी तुम, जग में शोक भग्यते हैं,
उन बच्चों की भिन्न नहीं है जो भूखे भी खाते हैं ।
रोटी के टुकड़े के लिए जो आपस में टकराते हैं,
जब भी के दिल से पूर्ण बच्चे जिसके तरस रहे हैं ।
जब राक्ष के दिल से पूर्ण जैसू-जिलती बरस रहे हैं,
उन लोगों की भिन्न नहीं है, देश के विप्लवकारों को,
फिर भी जिंद पर अड़े पड़े हैं बन्दे मातरम् गाने को ।
नेताओं की बात पिताली जो सबको लड़वाते हैं,
हिंदू, मुस्लिम, सिक्ख, ईसाई सबको जुटा करता है ।
आज ज़रूरत है भारत में एक नया दुम लाने की,
आज ज़रूरत है कौटों में फिर से फूल खिलाने की ।
जित दिन भारत की धरती पर एक नया युग आएगा,
उत दिन भारत का हर बच्चा बन्दे मातरम् गाएगा ।

माँ

रोज़ बालकनी में खड़ी होकर
एक बच्चे को देखती हूँ
स्कूल जाते हुए अच्छी साफ यूनिफॉर्म पहने
अजब अंदाज़ में चलते हुए
उसकी माँ उसका बेग
कंधे पर लटकाना होती है
सूखे कंधे पर पानी की बोतल होती है
माथ-माथ चलती है उसकी उसकी पकड़े हुए
रोज़ बालकनी में खड़ी होकर देखती हूँ
गली के किनारे में घिलघिलाने धूप में
लड़के को छतरी के नीचे लिए
खुद धूप में चलती है
बसस में खूब खींगली है मगर
लड़के को छतरी के नीचे बचाकर चलती है
भीम का बीमार न हो जाए कहीं
रोज़ बालकनी में खड़ी सोचती हूँ
माँ किस जगह में प्यार से लड़के
का बेग उठाए उसकी पानी की बोतल लेकर
रोज़ स्कूल छोड़ने जाती है, ताकि बड़ा होकर
एक अच्छा इंसान बने, उसका सहारा बने
और फिर सोचती हूँ

एक दिन यह लड़का अच्छी शिक्षा
पाने के लिए अमेरिका जाएगा
अपनी माँ की आँखों का तारा
वहाँ किसी लड़की से शादी कर लेगा
और अमेरिका ही बस जाएगा
माँ भारत में अकेली रह जाएगी
और सोचेगी क्या इसी दिन के लिए
इसे नी पाह पेट में रखा
पैदा किया, बड़े लड़क-प्यार से बड़ा किया
कि एक दिन मेरा सहारा बनेगा
मगर जो अमेरिका बस गया
माँ फिर अकेली रह गई

सच्ची शान्ति

प्रेरक-प्रसंग

एक बार एक युवक ने पद विवेकानन्द से शान्ति पाने का उपाय पूछा क्योंकि उसके मन में अशांत और व्यकुल रह था । विवेकानन्द ने उस युवक को अपने पास बैठाया और पूछा कि तुम्हें क्यों लगता है

कि तुम्हारा मन अशांत है ? युवक ने बताया कि जब कामों का बरपाया बन्द कर औरों में मूँह कर ध्यान लगाने की कोशिश करता हूँ, उसके मन को शान्ति नहीं मिले, उसका ध्यान ही स्थिर नहीं होता ।

विवेकानन्द ने उस युवक को ध्यान से समझाया कि जो तुम्हें ऐसा लगता है तो तुम ध्यान मत लगाओ बरकर खोलकर धारों तरफ देखो । गरीब और असहाय लोगों की सेवा करो । बीमार को दवा दो, भूखों को खाना दो और अगपड़ को चढ़ाने का काबू करो । फिर ही शान्ति मिलती है कि नहीं । असल में सच्ची शान्ति मानव सेवा में मिलती है ।

विवेकानन्द की सलाह मानकर वह युवक लोगों की सेवा में मन लगाने लगा और उसने पाया कि उसके मन में अशांत नहीं हुआ

प्रकृति का गुस्सा

प्रकृति ने गुस्सा दिखा लाया,
जो तारक कहकर बरसाया ।
रफ़्त हो या कीटरीना,
हँसल कर दिया सबका जीना ।
जब तक जहाँ थे हींसे चेहरे,
तो बिछन गए हैं लोग ।
सँ लोग हुए बेघर,
सँ हुए कर्षा ।

तापत लोग जानते हैं,
क्यों हैं ये विषदाये ।
पर्यावरण प्रदूषित कर,
देव किया धरती माँ खो ।
प्रकृति को नुकसान पहुँचाकर,
पूनाया दिया मृत्यु को ।
वर्ष अमनों से किलुहु गए,
लोग बीत खड़े नींद सोए ।
प्रकृति ने गुस्सा दिखा लाया,
जो तारक कहकर बरसाया ।

कमर तोड़ महँगाई

तु! कौसी कमर तोड़ महँगाई,
जब तकनी इसकी मार से कराह रहा,
तो हँसनी और बिना ही गुजर आ रही,
जुं में हुई दुर्घति और माज में कमी भरमा रही ।
जुं में रही जगजगदी ने
तुने हारों और मार की,
जुंसे ही अपने ऐसी खराब में लिखा,

जीवन एक संघर्ष

ताजी हवा को झोंके लेकर ।
मैं प्रसन्नचित धर में आया ।
गुनगुनते हुए मनमंसर गीत ।
मैंने समाचार पत्र उठाया ।
तभी तीसरे पृष्ठ के समाचार ने ।
मुझे घुरी तरह चौंकाया ।
कर्म से घुरी तरह होकर रुखी ।
किसान परिवार की सामूहिक खुदकुशी
दृष्टते देख गरीबी का कहार ।
एक परिवार ने खा लिया जहर
जो छात्रों ने परीक्षा में होकर फेल
कर लिया मृत्यु से मेल
आज जिंदगी हो गई मौल से मस्ती
इंसान धड़ा-धड़ बिठा रहा अपनी ही हस्ती
मनुष्य में संघर्ष का अभाव है
कामचोरी, कायरता व दुर्बलता का भाव है
बढ़ती प्रतिप्रेमिता नहीं आ रही राव
हार के भाव ने कम कर दिया है आत्मविश्वास
धेरे मोसलों हार से तुम खनि बचपन में हार जाते
तो आज अपने पैरों पर कभी खड़े न हो पाते
बार-बार गिरकर ही तुम्हें चलना आया
तुलना कर हकालतकर, तुम्हें बोलना आज
जब कभी तुम हार से घबरा जाओ
तुमन किसी छोटे बच्चे के पास जाओ
वह तुम्हें संघर्ष करने की कला सिखाएगा
हार को जीत में बदलना सिखाएगा

फिर लगती क्यों आज व्यथित?"

यमुना : "अधु से नम कमल नयन,
अब यही है मेरी व्यथा।
अब जब की सेवा करते - करते,
मेरा ही आँचल मलिन हुआ।

मरणासन्न कर मेरी स्थिति,
हे मनु तुने क्या पाया है ?
विकास के उच्चतम शिखर पर,
नरक को क्या क्या पाया है ?

जिससे तेरा इतिहास नुझा,
अस्तित्व की तेरी कहानी है।
मत भूल नु यह हे मनु !
वह मेरे ही तन का पानी है।

यमुनोत्री से ले कर जम्मू,
मे रविमुला कहलाई।
पर आज कोसती भाग्य को,
क्यों मैं इस जहान में आई ?

जो अब तक की जीवन का स्रोत,
ना कल अभिप्राय ही बन जाए।
गौरवमय जिसका इतिहास रहा,
कहीं वह स्वयं इतिहास न बन जाए।"

जो पहले नहीं थे कर पाए,
वह आज हम कर के दिखाएंगे।
यमुना एक्शन प्लान-2 के जरिए,
फिर से तुझे जिलाएंगे।

यमुना : "तोपी कौन है कौन नहीं,
यह प्रश्न स्वयं से ही पूछो।
जब प्रत्येक बूँद से घट भारता,
तब तो कौन न है मुझे।"

जो कल तक अलग-अलग थे छड़े,
वह आज साथ आ जाएंगे।
हे जीवन-देवी यमुना माँ तुझे,
फिर नव प्राण दे जाएंगे।"

कल तक जो राधन था पावन,
अमृत जल था जो कहलाता।
कल-करछाने की मंदगी से,

पेड़

पेड़ लगाओ भई पेड़ लगाओ,
अपने जीवन को स्वस्थ बनाओ,
पर उपवन में पेड़ लगाओ,
बापु प्रवृत्त को दूर बनाओ ।
पड़ देते हमें फल और फूल,
इन्हें लगाना नहीं है भूल ।
आग रहना चाहते हो स्वस्थ,
इन्हें काटना, अब क्यों तुम बल ।
धूप से हम जल बचना चाहते,
पड़ हों टंडी छाँव हैं देते ।
इसी से मिलती हमें इच्छा,
इसी से मिलती हमें दया ।
क्यों कर रहे हो अपने जीवन को गड़,
क्यों ते रहे हो अपनी धरती काँ को कष्ट ।
इसी की टंडनी पर चिरिदया बैठकर गाथा है गानी,
जिसे सुनकर हम सबकी मुस्कं हो जाती ।
पेड़ से ही तो हम स्वस्थ जीवन स्वस्थ बना है,

प्याज की कहानी

एक बार एक औरत तीन
तरह की सब्जियाँ लाई ।
आलू, टमाटर, प्याज । वे
तीनों साध-साध बड़ी हो
हँसी-मुस्ती से रहने लगे ।
अब वे एक अच्छे दोस्त
बन गए थे । अपना हर सुख-दुख एक-दूसरे से सा
झूटने लगे । एक दिन वह औरत आई और उन
को ले जाकर उसे काटने लगी । इसे देखकर वह
टमाटर रोने लगे । उसने अपने दोस्त को खोने का
दुख सहा नहीं जा रहा था । परन्तु वे कुछ का न
सकते थे । अब जो तीन से दो हो चुके थे । न
अपने दोस्त की बहुत घाव आती थी, जैसे-जैसे वे
काँटले गये । वह औरत फिर आई और टमाटर को
ले गई । इस बार प्याज खूब रोया क्योंकि वह जो
दोस्तों को खोने के साथ-साथ अकेला हो चुका था
। अब उसका कोई दोस्त नहीं था । जिसे वह उस
सुख-दुख सुनाता । अब उसके पास उन दोनों को का
कटने के सिवा और कुछ नहीं था । दिन बीतते न
वह औरत फिर आई, इस बार बारी प्याज की है
जब वह प्याज को ले जाने लगी तो प्याज ने पल्ल
से प्रार्थना की कि 'हे प्रभु' 'जब आलू को का
गया तो टमाटर और मैं खूब रोए । जब टमाटर को
काटा गया तो मैं रोया, परन्तु आज जब मेरी का
आई है तो मैंने सिवा रोने वाला कोई नहीं है मैं एका
अकेला हूँ आखिर मैंने ऐसा क्या गुनाह किया है ?'
आखिर में भगवान ने उसकी प्रार्थना सुनी और उ
बरदान दिया कि आज से जो कोई तुम्हें काटेगा व
अवश्य ही रोएगा । आज के बाद तुम्हारे जाने का
गम हर किसी को होगा, हर कोई तुम्हारे निः को
बड़ाएगा, यही कारण है कि जब हम प्याज काटते
तो हमारी आँखों में आँसू आते हैं ।

एक कविता

आज बैठा हूँ ऐसी कविता लिखने की सोच कर,
 लोगों को कुछ तो सोचना पड़े उसे पढ़ कर
 चाहता हूँ लिखना ऐसी कविता,
 ऐसी पारदर्शी, जितनी सुन्दर, स्वच्छ सरिता
 पर लिखूँ किस विषय पर मैं अपने विचार,
 स्तू - लाईन, आतंकवाद या भ्रष्टाचार ।
 पर सोचता हूँ कि फँसी शाखाओं की भी जड़ें होती हैं ।
 और जड़ों के साथ शाखाएँ भी निष्क्रिय हो सकती हैं ।
 तो इस पेड़ की जड़ें क्या हैं, उसी एक विषय पर लिखा जाए,
 ताकि इस कविता में क्या है लोगों को यह तो समझ आ जाए ।
 और ऐसा विषय तो है - इंसान,
 असल में इंसान नहीं, पर उसके अंदर का हँसान ।
 वह हँसान जो चाहता है बस अपना स्वार्थ सिद्ध करना,
 चाहे उसके लिए पड़े दूसरों को क्यों न मरना ।
 लोग दूसरों को दुल्कारना तो नहीं भूलते,
 पर कभी अपने-आप को भी नहीं टटोलते ।
 देखते हैं भी बार अपने शरीर को आड़ने में ।
 पर उनका स्वयं का चरित्र तो खंबू ही रह जाता है अभिमान की कींव में ।
 अरे ईश्वर ने शरीर दिया है दूसरों की भलाई के लिए,
 न कि दूसरों के पेट काटकर अपनी काली कमाई के लिए ।
 विकास का बिड़ोरा धीटने वाले जब सही अर्थ में विकास को समझ पाएँगे,
 तभी यह राष्ट्र और इसके वासी विकसित कहलाएँगे ।

बादलों पर खाले गोल-गम्मे,
झुलझुलते इन्द्रधनुष पर।
लड़ाई-झगड़ा कोई न करला,
प्यार के धागों से बुनी रहती यह बुनिया।

काश इस सपने में ही हम रही खाली,

बैल का दूध

एक बार बीरबल को राजा के दरबार में पहुंचाने में देरी हो गई इससे बादशाह अकबर नाराज हो गए और उन्होंने बीरबल को एक पहेंली देने को सोचा। जब बीरबल आए तब अकबर ने कहा "बीरबल तुम हमेशा ही कहते रहते हो कि बुद्धिमानी और चतुराई से कोई भी काम मुश्किल नहीं है"। बीरबल ने कहा जहाँपनाह यह बात सच ही तो है। इसी बात पर अकबर ने कहा क्या तुम मुझे बैल का दूध लाकर दे सकते हो? बीरबल उदास होकर अपने घर चले गए उन्होंने अपनी बेटी को सारी बात बताई। उनकी बेटी ने कहा पिताजी आप चिंता न करें। उसी रात उनकी बेटी उनके सारे कपड़े लेकर गडल के पासवाले कुएं में जाकर कपड़े धोने लगी। कपड़े धोने की आवाज से राजा अकबर की नींद खराब हो गई इस पर उन्होंने बीरबल की बेटी से कहा "तुम इसी रात यहां क्या कर रही हो?" बीरबल की बेटी ने कहा कि दरअसल बात यह है कि मेरी नौ मेरी दादीजी के घर गई हुई है और मेरे पिताजी ने एक खूबसूरत बच्चे को जन्म दिया है। इस बात पर राजा अकबर हैरान होकर बोले कि भला यह कैसे मुमकिन है? बीरबल की बेटी बोली क्यों नहीं, जिस देश में सारेआम बैल का दूध मिलता हो वहां एक आदमी बच्चे को जन्म क्यों नहीं दे सकता? इसी बात पर अकबर समझ गए और उन्होंने बीरबल की बेटी से कहा तुम अपने घर जाओ और अपने पिताजी से कहना बादशाह अकबर ने उन्हें माफ कर दिया है।

भारत की शान

भारत माँ की शान है हम
धर्म और ईमान है हम
नाम है हमको इस भूमि पर
भारत में लिया हमने जन्म
जब तिरंगा लहराता है
सुरमन घर में छुप जाता है।
इसकी ताकत के आगे
सबका सर झुक जाता है
इसकी पूजा है अपना धर्म
भारत माँ की शान है हम
जब सेना का नीजवान
सरहद पर ही सीना तान
सुरमन भागे पीठ बिछा
और वीरों ने अपनी जान
देश की रक्षा है अपना कर्म
भारत माँ की शान है हम
विद्यालय के प्रांगण में
आज उठाते प्रणाम है हम
जब भी संकट आएगा
देश की रक्षा करेंगे हम
भारत माँ की शान है हम।
धर्म और ईमान है हम।

EFFORTS FOR MAKING ECO-FRIENDLY DHWALI
The eco-club of Rosary Sr Sec School under the leadership of Fr Sales Joseph took the initiative of enhancing the thousands of people travelling by Delhi Metro to celebrate an eco-friendly Dhwali. Made possible by the overwhelming support of DMRC, 25 students of the Green Brigade accompanied with teachers boarded the metro train Vaidyanagar and decorated themselves at 1000 for its three existing routes, Shalimar, Noida and Central Sector. The activity requested the citizens to say no to crackers on Dhwali. Hand bills were given to the passengers thanking them for using Metro. These efforts were highly praised by all.

A grand function was organised by the teachers' guild of Delhi Diocese led by Jacob K C to celebrate the golden

on jubilee of Rosary Sr Sec School, Kingsway Camp. Fr. Vincent O'Shea the Vice General and the chairman of the Delhi Diocese schools was the chief guest. All the Catholic schools of Delhi diocese were invited to gather at the Rosary church. The holy mass was celebrated by the Vice General Fr. Vincent O'Shea and concelebrated by Fr. Vincent, principal of St. Michael's School, Fr. Claude O'Shea and school principal Fr. Sales Joseph. A panel discussion on 'Teaching as a profession and a vocation' was organised for the day. The resource person was Dr. Emmanuel, principal of Mountfort School, Ashok Vihar. Fr. Vincent presided the session with a prayer.
